With a Critical Eye Arthur J. Vidich 2009 Internationally renowned sociologist Arthur J. Vidich (1922-2006) was an active researcher and teacher whose career spanned the second half of the twentieth century. *With a Critical Eye: An Intellectual and His Times* recounts Vidich's career in the wider cultural context of his life and work. Providing a window into post-World War II intellectual life, the richness of the autobiography lies not only in Vidich's perspectives on the academic world but also in his personal and sociological observations about the world around him. Best known for his book *Small Town in Mass Society* (co-authored with Joseph Bensman, 1958), Vidich taught for more than forty years at the New School for Social Research in New York. He published eighteen books, co-edited a book series with Robert Jackall, and was the founding editor of the *International Journal of Politics, Culture, and Society*. Vidich "provides a valuable lens ... on a profoundly important time in the formation of the modern social sciences, when the changes in the U.S. were having formative impacts on academe in other parts of the world," writes Robert J. Antonio, professor of sociology at the University of Kansas. "The autobiography is lucidly and unpretentiously written." Book jacket. [Sounding Imperial](#) James Mulholland 2013-07-30 In *Sounding Imperial*,

James Mulholland offers a new assessment of the origins, evolution, and importance of poetic voice in the eighteenth and early nineteenth centuries. By examining a series of literary experiments in which authors imitated oral voices and impersonated foreign speakers, Mulholland uncovers an innovative global aesthetics of poetic voice that arose as authors invented new ways of crafting textual voices and appealing to readers. As poets drew on cultural forms from around Great Britain and across the globe, impersonating "primitive" speakers and reviving ancient oral performances (or fictionalizing them in verse), they invigorated English poetry. Mulholland situates these experiments with oral voices and foreign speakers within the wider context of British nationalism at home and colonial expansion overseas. *Sounding Imperial* traces this global aesthetic by reading texts from canonical authors like Thomas Gray, James Macpherson, and Felicia Hemans together with lesser-known writers, like Welsh antiquarians, Anglo-Indian poets of colonialism, and impersonators of Pacific islanders. The frenetic borrowing, movement, and adaptation of verse of this time offers a powerful analytic by which scholars can understand anew poetry's role in the formation of national culture and the exercise of colonial power. *Sounding Imperial* offers a more nuanced sense of poetry's unseen role in larger historical processes, emphasizing not just appropriation or collusion but the murky middle

range in which most British authors operated during their colonial encounters and the voices that they used to make those cross-cultural encounters seem vivid and alive.

Private, the Public, and the Published Barbara Couture 2004-05 At the 2003 "Rock the Vote" debate, one of the questions posed by a student to the eight Democratic candidates for the presidential nomination was "have you ever used marijuana?" Amazingly, all but one of the candidates voluntarily answered the question. Add to this example the multiple ways in which we now see public intrusion into private lives (security cameras, electronic access to personal data, scanning and "wandering" at the airport) or private self-exposure in public forums (cell phones, web cams, confessional talk shows, voyeuristic "reality" TV). That matters so private could be treated as legitimate--in some cases even vital--for public discourse indicates how intertwined the realms of private and public have become in our era. Reverse examples exist as well. Around the world, public authorities look the other way while individual rights are abused--calling it a private matter--or officials appeal to sectarian morés to justify discrimination in public policies. The authors of *The Private, the Public, and the Published* feel that scholarship needs to explore and understand this phenomenon, and needs to address it in the college classroom. There are consequences of conflating public and private, they argue--consequences that have implications especially for what is known as the public good. The changing distinctions between "private" and "public," and the various practices of private and public expression, are explored in these essays with an eye toward what they teach us about those consequences and implications.

Imagining the Balkans Maria Todorova 2009-04-15 "If the Balkans hadn't existed, they would have been invented" was the verdict of Count Hermann Keyserling in his famous 1928 publication, *Europe*. Over ten years ago, Maria Todorova traced the relationship between the reality and the invention. Based on a rich selection of travelogues, diplomatic accounts, academic surveys, journalism, and belles-lettres in many languages, *Imagining the Balkans* explored the ontology of the Balkans from the sixteenth century to the present day, uncovering the ways in which an insidious intellectual tradition was constructed, became mythologized, and is still being transmitted as discourse. Maria Todorova, who was raised in the Balkans, is in a unique position to bring both scholarship and sympathy to her subject, and in a new afterword she reflects on recent developments in the study of the Balkans and political developments on the ground since the publication of *Imagining the Balkans*. The afterword explores the controversy over Todorova's coining of the term Balkanism. With this work, Todorova offers a timely, updated, accessible study of how an innocent geographic appellation was transformed into one of the most powerful and widespread pejorative designations in modern history.

The Vitamin A Story B. Koletzko 2012-09-04 This book shows how vitamin A deficiency - before the vitamin was known to scientists - affected millions of people throughout history. It is a story of sailors and soldiers, penniless mothers, orphaned infants, and young children left susceptible to blindness and fatal infections. We also glimpse the fortunate ones who, with ample vitamin A-rich food, escaped this elusive stalker. Why were people going blind and dying? To unravel this puzzle, scientists around the world competed over the course of a century. Their persistent efforts led to the identification of vitamin A and its essential role in health. As a primary focus of today's international public health

efforts, vitamin A has saved hundreds of thousands of lives. But, we discover, they could save many more were it not for obstacles erected by political and ideological zealots who lack a historical perspective of the problem. Although exhaustively researched and documented, this book is written for intellectually curious lay readers as well as for specialists. Public health professionals, nutritionists, and historians of science and medicine have much to learn from this book about the cultural and scientific origins of their disciplines. Likewise, readers interested in military and cultural history will learn about the interaction of health, society, science, and politics. The author's presentation of vitamin A deficiency is likely to become a classic case study of health disparities in the past as well as the present.

Keys to Play Roger Moseley 2016-10-28 A free ebook version of this title is available through Luminos, University of California Press's Open Access publishing program for monographs. Visit www.luminosoa.org to learn more. How do keyboards make music playable? Drawing on theories of media, systems, and cultural techniques, *Keys to Play* spans Greek myth and contemporary Japanese digital games to chart a genealogy of musical play and its animation via improvisation, performance, and recreation. As a paradigmatic digital interface, the keyboard forms a field of play on which the book's diverse objects of inquiry—from clavichords to PCs and eighteenth-century musical dice games to the latest rhythm-action titles—enter into analogical relations. Remapping the keyboard's topography by way of Mozart and Super Mario, who head an expansive cast of historical and virtual actors, *Keys to Play* invites readers to unlock ludic dimensions of music that are at once old and new.

Framed Elizabeth Carolyn Miller 2008 *Framed* uses fin de siècle British crime narrative to pose a highly interesting question: why do female criminal characters tend to be alluring and appealing while fictional male criminals of the era are unsympathetic or even grotesque? In this elegantly argued study, Elizabeth Carolyn Miller addresses this question, examining popular literary and cinematic culture from roughly 1880 to 1914 to shed light on an otherwise overlooked social and cultural type: the conspicuously glamorous New Woman criminal. In so doing, she breaks with the many Foucauldian studies of crime to emphasize the genuinely subversive aspects of these popular female figures. Drawing on a rich body of archival material, Miller argues that the New Woman Criminal exploited iconic elements of late nineteenth- and early twentieth-century commodity culture, including cosmetics and clothing, to fashion an illicit identity that enabled her to subvert legal authority in both the public and the private spheres. "This is a truly extraordinary argument, one that will forever alter our view of turn-of-the-century literary culture, and Miller has demonstrated it with an enrapturing series of readings of fictional and filmic criminal figures. In the process, she has filled a gap between feminist studies of the New Woman of the 1890s and more gender-neutral studies of early twentieth-century literary and social change. Her book offers an extraordinarily important new way to think about the changing shape of political culture at the turn of the century." --John Kucich, Professor of English, Rutgers University "Given the intellectual adventurousness of these chapters, the rich material that the author has brought to bear, and its combination of archival depth and disciplinary range, any reader of this remarkable book will be amply rewarded." ---Jonathan Freedman, Professor of English and American Culture, University of Michigan Elizabeth Carolyn Miller is Assistant Professor of English at the University of California, Davis. digitalculturebooks is an imprint of the University of Michigan and the Scholarly Publishing Office of the University of Michigan Library dedicated to publishing innovative and accessible work exploring new media and

Congoism Johnny Van Hove 2017-10-31 To justify the plundering of today's Democratic Republic of the Congo, U.S. intellectual elites have continuously produced dismissive Congo discourses. Tracing these discourses in great depth and breadth for the first time, Johnny Van Hove shows how U.S. intellectuals (and their influential European counterparts) have been using the Congo in similar fashions for their own goals. Analyzing intellectuals as diverse as W.E.B. Du Bois, Joseph Conrad, and David Van Reybrouck, the book offers a theorization of Central West Africa, a case study of normalized narratives on the "Other", and a stirring wake up call for all contemporary writers on international history and politics.

The Solaris Effect Steven Dillon 2010-01-01 What do contemporary American movies and directors have to say about the relationship between nature and art? How do science fiction films like Steven Spielberg's A.I. and Darren Aronofsky's π represent the apparent oppositions between nature and culture, wild and tame? Steven Dillon's intriguing new volume surveys American cinema from 1990 to 2002 with substantial descriptions of sixty films, emphasizing small-budget independent American film. Directors studied include Steven Soderbergh, Darren Aronofsky, Todd Haynes, Harmony Korine, and Gus Van Sant, as well as more canonical figures like Martin Scorsese, Robert Altman, David Lynch, and Steven Spielberg. The book takes its title and inspiration from Andrei Tarkovsky's 1972 film *Solaris*, a science fiction ghost story that relentlessly explores the relationship between the powers of nature and art. The author argues that American film has the best chance of aesthetic success when it acknowledges that a film is actually a film. The

best American movies tell an endless ghost story, as they perform the agonizing nearness and distance of the cinematic image. This groundbreaking commentary examines the rarely seen bridge between select American film directors and their typically more adventurous European counterparts. Filmmakers such as Lynch and Soderbergh are cross-cut together with Tarkovsky and the great French director, Jean-Luc Godard, in order to test the limits and possibilities of American film. Both enthusiastically cinephilic and fiercely critical, this book puts a decade of U.S. film in its global place, as part of an ongoing conversation on nature and art.

In 1926 Hans Ulrich GUMBRECHT 2009-06-30 In this thoroughly innovative work, Hans Ulrich Gumbrecht evokes the year 1926 through explorations of such things as bars, boxing, movie palaces, hunger artists, airplanes, hair gel, bullfighting, film stardom and dance crazes. From the vantage points of Berlin, Buenos Aires, and New York, the reader is allowed multiple itineraries, ultimately becoming immersed in the activities, entertainments, and thought patterns of the citizens of 1926.

Jonathan Swift and Popular Culture Ann Cline Kelly 2008-06-15 Winner of the Choice Outstanding Academic Title! Ann Kelly's provocative book breaks the mold of Swift studies. 20th-century scholars have tended to assess Jonathan Swift as a pillar of the 18th-century "republic of letters," a conservative, even reactionary voice upholding classical values against the welling tide of popularization in literature. Kelly's Swift is instead a practical exponent of the popular and impresario of the literary image. She argues that Swift turned his back on the elite to write for a popular audience, and that he annexed scandals to his fictionalized print alter ego, creating a continual demand for works by or about this self-mythologized figure. A fascinating look at popular print media, the commodification of the author, culture formation, and modern myth making, this book opens new ground in our understanding of one of the greatest English writers.

The Sword of Judith Kevin R. Brine 2010 The Book of Judith tells the story of a fictitious Jewish woman beheading the general of the most powerful imaginable army to free her people. The parabolic story was set as an example of how God will help the righteous. Judith's heroic action not only became a validating charter myth of Judaism itself but has also been appropriated by many Christian and secular groupings, and has been an inspiration for numerous literary texts and works of art. It continues to exercise its power over artists, authors and academics and is becoming a major field of research in its own right. The Sword of Judith is the first multidisciplinary collection of essays to discuss representations of Judith throughout the centuries. It transforms our understanding across a wide range of disciplines. The collection includes new archival source studies, the translation of unpublished manuscripts, the translation of texts unavailable in English, and Judith images and music.

Genetic Diversity in Plants Amir Muhammed 2012-12-06 For the last eighteen years we have been deeply involved in a cooperative effort with our Latin American colleagues in genetics, biochemistry, physiology, and molecular biology. We have been in close contact with scientists in a number of centers and have helped to organize symposia, workshops, and so forth, in an effort to accelerate their development and make their substantial work known. These symposia in Latin America have been quite successful. The fifteenth will take place in Brasilia in 1977. At the request of colleagues, we are in the process of developing a similar series in Asia. The first very successful symposium was held in Calcutta in 1973. We were most pleased when Dr. Amir Muhammed, Vice Chancellor of the University of Agriculture, Lyallpur suggested that we hold a symposium on a topic of great importance to Pakistan, Genetic Control of Diversity in Plants, under the auspices of the University of Agriculture. It is our hope that this symposium will be followed by additional ones in Pakistan as well as in other countries in the Far East. Leadership is quickly developing in the hands of outstanding scientists in these countries, and we appreciate the opportunity to cooperate with them. We are especially grateful to the National Science Foundation for making PL- 480 funds available which

made this symposium possible.

The Imperial Sublime Harsha Ram 2006-03-31 Review: "The Imperial Sublime examines the rise of the Russian empire as a literary theme alongside the creation and evolution of modern Russian poetry between the 1730s and 1840. Arising from the need to celebrate the Russian state and its expanding territories, the imperial theme quickly became enmeshed in a wider range of issues, from formal problems of genre, style, and lyric voice to the vexed relationship between the poet and Russia's ruling monarchs." "Part of a growing body of recent scholarship that has examined Russian representations of Russia's southern borderlands in the light of European orientalism and imperialism, *The Imperial Sublime* shows how the broader cultural discourses of empire can be adapted and inflected by a national literary system."--BOOK JACKET

East India Company at Home, 1757-1857 Margot Finn 2018-02-15 *The East India Company at Home, 1757-1857* explores how empire in Asia shaped British country houses, their interiors and the lives of their residents. It includes chapters from researchers based in a wide range of settings such as archives and libraries, museums, heritage organisations, the community of family historians and universities. It moves beyond conventional academic narratives and makes an important contribution to ongoing debates around how empire impacted Britain. The volume focuses on the propertied families of the East India Company at the height of Company rule. From the Battle of Plassey in 1757 to the outbreak of the Indian Uprising in 1857, objects, people and wealth flowed to Britain from Asia. As men in Company service increasingly shifted their activities from trade to military expansion and political administration, a new population of civil servants, army officers, surveyors and surgeons journeyed to India to make their fortunes. These Company men and their families acquired wealth, tastes and identities in India, which travelled home with them to Britain. Their stories, the biographies of their Indian possessions and the narratives of the stately homes in Britain that came to house them, frame our explorations of imperial culture and its British legacies.

The Representation of Business in English Literature Arthur Pollard 2009 In *The Representation of Business in English Literature*, five scholars of different periods of English literature produce original essays on how business and businesspeople have been portrayed by novelists, starting in the eighteenth century and continuing to the end of the twentieth century. The contributors to *Representation* help readers understand the partiality of the various writers and, in so doing, explore the issue of what determines public opinion about business. Arthur Pollard (1922-2001) was Professor Emeritus of English at the University of Hull in Hull, East Yorkshire, England. John Blundell is General Director of the Institute of

Economic Affairs, London. Please note: This title is available as an ebook for purchase on Amazon, Barnes and Noble, and iTunes.
