between the 1730s and 1840. Arising from the need to celebrate the Russian state and its expanding territories, the imperial theme quickly became enmeshed in a wider range of issues, from formal problems of genre, style, and lyric voice to the vexed relationship between the poet and Russia's ruling monarchs." "Part of a growing body of recent scholarship that has examined Russian representations of Russia's southern borderlands in the light of European orientalism and imperialism, *The Imperial Sublime* shows how the broader cultural discourses of empire can be adapted and inflected by a national literary system."--

arts? What sociocultural, political, environmental, and gendered "goods" can artistic engagements create for people worldwide? Do particular artistic endeavors have distinctive potentials for nurturing artistic citizenship? What are the most effective strategies in the arts to institute change and/or resist local, national, and world problems? What obligations do artists and consumers of art have to facilitate relationships between the arts and citizenship? How can artistic activities contribute to the eradication of adverse 'ism's? A substantial accompanying website features video clips of "artivism" in action, videotaped interviews with scholars and practitioners working in a variety of spaces and places, a blog, and supplementary resources about existing and emerging initiatives. Fearless! Valerie Connelly 2016-02-01 Fearless! takes place somewhere in the USA in a present-day big or medium-sized city, but it could take place in any American town. The story is engaging, with recognizable elements of reality balanced with a bit of fantasy. [Movies on Our Minds](#) James E. Cutting 2021-08-10 This book traces the development of popular cinema from its inception to the present day to understand why humankind has expanded its viewing of popular movies over the last century. Drawing from his extensive work as a psychologist studying artistic canons, James E. Cutting presents hundreds

of films across a wide range of genres and eras, considers the structure of frame content, shots, scenes, and larger narrational elements defined by color, brightness, motion, clutter, and range of other variables. He examines the effects of camera lenses, image layout, transitions, and historical functions to classify different kinds of shots. He explains the arcs of scenes, the larger structure of sequences, and the scene- and sequence-like units that have become increasingly prevalent in recent years. The book then breaks movies into larger, roughly half-hour parts and espouses the psychological evidence behind each device's intended effect, ultimately exploring the rhythms of whole movies, the flow of physical changes, and the cinematic polyrhythms that have come to match aspects those in the human body. Along the way, the book considers cultural and technological

Vidich (1922-2006) was an active researcher and teacher whose career spanned the second half of the twentieth century. *With a Critical Eye: An Intellectual and His Times* recounts Vidich's career in the wider cultural context of his life and work. Providing a window into post-World War II intellectual life, the richness of the autobiography lies not only in Vidich's perspectives on the academic world but also in his personal and sociological observations about the world around him. Best known for his book *Small Town in Mass Society* (co-authored with Joseph Berman, 1958), Vidich taught for more than forty years at the New School for Social Research in New York. He published eighteen books, co-edited a book series with Robert Jackall, and was the founding editor of the *International Journal of Politics, Culture, and Society*. Vidich "provides a

Framed Elizabeth Carolyn Miller 2008 Framed uses fin de siècle British crime narrative to pose a highly interesting question: why do female criminal characters

tend to be alluring and appealing while fictional male criminals of the era are unsympathetic or even grotesque? In this elegantly argued study, Elizabeth Carolyn Miller addresses this question, examining popular literary and cinematic culture from roughly 1880 to 1914 to shed light on an otherwise overlooked social and cultural type: the conspicuously glamorous New Woman criminal. In so doing, she breaks with the many Foucauldian studies of crime to emphasize the genuinely subversive aspects of these popular female figures. Drawing on a rich body of archival material, Miller argues that the New Woman Criminal exploited iconic elements of late nineteenth- and early twentieth-century commodity culture, including cosmetics and clothing, to fashion an illicit identity that enabled her to subvert legal authority in both the public and the private spheres. "This is a

truly extraordinary argument, one that will forever alter our view of turn-of-the-century literary culture, and Miller has demonstrated it with an enrapturing series of readings of fictional and filmic criminal figures. In the process, she has filled a gap between feminist studies of the New Woman of the 1890s and more gender-neutral studies of early twentieth-century literary and social change. Her book offers an extraordinarily important new way to think about the changing shape of political culture at the turn of the century." ---John Kucich, Professor of English, Rutgers University "Given the intellectual adventurousness of these chapters, the rich material that the author has brought to bear, and its combination of archival depth and disciplinary range, any reader of this remarkable book will be amply rewarded." ---Jonathan Freedman, Professor of

historians and universities. It moves beyond conventional academic narratives and makes an important contribution to ongoing debates around how empire impacted Britain. The volume focuses on the propertied families of the East India Company at the height of Company rule. From the Battle of Plassey in 1757 to the outbreak of the Indian Uprising in 1857, objects, people and wealth flowed to Britain from Asia. As men in Company service increasingly shifted their activities from trade to military expansion and political administration, a new population of civil servants, army officers, surveyors and surgeons journeyed to India to make their fortunes. These Company men and their families acquired wealth, tastes and identities in India, which travelled home with them to Britain. Their stories, the biographies of their Indian possessions and the narratives of the stately

homes in Britain that came to house them, frame our explorations of imperial culture and its British legacies.

history of outer space and extraterrestrial life in the European imagination. How was outer space conceived and communicated? What promises of interplanetary expansion and cosmic colonization propelled the project of human spaceflight to the forefront of twentieth-century modernity? In what way has West-European astroculture been affected by the continuous exploration of outer space? Tracing the thriving interest in spatiality to early attempts at exploring imaginary worlds beyond our own, the book analyzes contact points between science and fiction from a transdisciplinary perspective and examines sites and situations where utopian images and futuristic technologies contributed to the omnipresence of fantasmatic thought. Bringing together state-of-the-art work in this emerging field of historical research, the volume breaks new ground in the

The Representation of Business in English Literature

Arthur Pollard 2009 In *The Representation of Business in English Literature*, five scholars of different periods of English literature produce original essays on how business and businesspeople have been portrayed by novelists, starting in the eighteenth century and continuing to the end of the twentieth century. The contributors to *Representation* help readers understand the partiality of the various writers and, in so doing, explore the issue of what determines public opinion about business. Arthur Pollard (1922-2001) was Professor Emeritus of English at the University of Hull in Hull, East Yorkshire, England. John Blundell is General Director of the Institute of Economic Affairs, London. Please note: This title is available as an ebook

Visualizing Fascism Julia Adeney Thomas 2020-03-13 Visualizing Fascism argues that fascism was not merely a domestic menace in a few European nations, but arose as a genuinely global phenomenon in the early twentieth century. Contributors use visual materials to explore fascism's populist appeal in settings around the world, including China, Japan, South Africa, Slovakia, and Spain. This visual strategy allows readers to see the transnational rise of the right as it fed off the agitated energies of modernity and mobilized shared political and aesthetic tropes. This volume also considers the

postwar aftermath as antifascist art forms were depoliticized and repurposed in the West. More commonly, analyses of fascism focus on Italy and Germany alone and on institutions like fascist parties, but that approach truncates our understanding of the way fascism was indebted to colonialism and internationalism with all their attendant grievances and aspirations. Using photography, graphic arts, architecture, monuments, and film—rather than written documents alone—produces a portable concept of fascism, useful for grappling with the upsurge of the global right a century ago—and today. of people throughout history. It is a story of sailors and soldiers, penniless mothers, orphaned infants, and young children left susceptible to blindness and fatal infections. We also glimpse the fortunate ones who, with ample vitamin A-rich food, escaped this elusive stalker. Why were people going blind and dying? To unravel this puzzle, scientists around the world competed over the course of a century. Their persistent efforts led to the identification of vitamin A and its essential role in health. As a primary focus of today's international public health efforts, vitamin A has saved hundreds of thousands of lives. But, we discover, they could save many more were it not for obstacles erected by political and ideological zealots who lack a historical perspective of the problem. Although exhaustively researched and documented, this book is written for intellectually

curious lay readers as well as for specialists. Public health professionals, nutritionists, and historians of science and medicine have much to learn from this book about the cultural and scientific origins of their disciplines. Likewise, readers interested in military and cultural history will learn about the interaction of health, society, science, and politics. The author's presentation of vitamin A deficiency is likely to become a classic case study of health disparities in the past as well as the present.

Kurosawa's films, Stephen Prince provides two new chapters that examine Kurosawa's remaining films, placing him in the context of cinema history. Prince also discusses how Kurosawa furnished a template for some well-known Hollywood directors, including Martin Scorsese, Steven Spielberg, and George Lucas. Providing a new and comprehensive look at this master filmmaker, *The Warrior's Camera* probes the complex visual structure of Kurosawa's work. The book shows how Kurosawa attempted to symbolize on film a course of national development for post-war Japan, and it traces the ways that he tied his social visions to a dynamic system of visual and narrative forms. The author analyzes Kurosawa's entire career

and places the films in context by drawing on the director's autobiography--a fascinating work that presents Kurosawa as a Kurosawa character and the story of his life as the kind of spiritual odyssey witnessed so often in his films. After examining the development of Kurosawa's visual style in his early work, *The Warrior's Camera* explains how he used this style in subsequent films to forge a politically committed model of filmmaking. It then demonstrates how the collapse of Kurosawa's efforts to participate as a filmmaker in the tasks of social reconstruction led to the very different cinematic style evident in his most recent films, works of pessimism that view the world as resistant to change. -- "Choice"
