this book, which presents many of their recollections from firsthand interviews alongside a wealth of period photographs. Eastern European Youth Cultures in a Global Context Matthias Schwartz 2016-04-29 The demise of state Socialisms caused radical social, cultural and economic changes in Eastern Europe. Since then, young people have been confronted with fundamental disruptions and transformations to their daily environment, while an unsettling, globalized world substantially reshapes local belongings and conventional values. In times of multiple instabilities and uncertainties, this volume argues, young people prefer to try to adjust to given circumstances than to adopt the behaviour of potential rebellious,

adolescent role models, dissident counter-cultures or artistic breakings of taboo. Eastern European Youth Cultures in a Global Context takes this situation as a starting point for an examination of generational change, cultural belongings, political activism and everyday practices of young people in different Eastern European countries from an interdisciplinary perspective. It argues that the conditions of global change not only call for a differentiated evaluation of youth cultures, but also for a revision of our understanding of 'youth' itself – in Eastern Europe and beyond. **Desserts LaBelle** Patti LaBelle 2017-04-25 Superstar singer, bestselling cookbook author, and cooking show host Patti LaBelle

Runways & Racers Terry O'Neil 2011-05-19

Runways and Racers concentrates on the short transitional period, 1952-1954, for sports car racing in America following the ban on public road racing in many of the States. The ban left the rapidly expanding Sports Car Club of America with a problem: where to hold races. At precisely the same time, Curtis LeMay, head of Strategic Air Command, was having problems obtaining funds from Congress to improve conditions on the many air bases located around the country. The solution was a marriage of convenience, whereby the SCCA was allowed access to active SAC air bases to hold its race

programmes. In return, the SAC base would receive the net profits from the event, which would be put into the Airmen's Living Improvement Fund. As a result of some initial financial success for the SAC bases, the scheme was also adopted by non-SAC bases together with regional clubs, with the same agreement in place. Complaints from airmen alerted Congressman Errett Scrivner to potential irregularities, and he ordered an audit to be conducted to ascertain precisely what it was costing the air bases to host the races. His findings led to the cessation of the races, ordered by Congress. The product of a long period of extensive research by the author, this book gives a fascinating insight into this two-year period,

Mundane Objects Pierre Lemonnier 2016-06-16

This concise book shows the importance of objects that are considered ordinary by cultural outsiders and scholars, yet lie at the heart of the systems of thought and practices of their makers and users. This volume demonstrates the role of these objects in nonverbal communication, both in non-ritual and in ritual situations. Lemonnier shows that some objects, their physical properties and their material implementation, are wordless expressions of fundamental aspects of a way of living and thinking, as well as sometimes the only means of expressing the inexpressible. Through the study of the most

mundane technical activities such as fence building, creating models cars, or trapping fish, we often gain a better understanding of what these objects mean and how they work within their cultures of origin. In addition to anthropologists and archaeologists, this book will also be of interest to sociologists, historians, philosophers, cognitive anthropologists and primatologists, for whom the intertwining of "function" and "style" is the very mark of all cultural behavior.

### *Medical Anthropology*

Andrea S. Wiley 2009

Intended as the primary text for introductory courses on medical anthropology, this book integrates human biological data relevant to health and disease with both evolutionary theory and the social environments that more often than not produce major challenges to health and survival.

Because students who take this fastest-growing anthropology course come from a variety of disciplines (anthropology, biology, especially pre-med students, and health sciences, especially),

the text does not assume anything beyond a basic high-school level familiarity with human biology and anthropology. The authors first present basic biological information on a particular health condition and then expand their analysis to include evolutionary, historical, and cross-cultural perspectives. Among the topics covered are nutrition, infectious disease, stress, reproductive health, behavioral disease, aging, race/racism and health, mental health, and healers and healing.

account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who

has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.

*Katie's Cabbage* Katie Stagliano 2014-12-12  
Katie's Cabbage is the inspirational true story of how Katie Stagliano, a third grader from Summerville, South Carolina, grew a forty-pound cabbage in her backyard and donated it to help feed 275 people at a local soup kitchen. In her own words, Katie shares the story of the little cabbage seedling and the big ideas of generosity and service that motivated her to turn this experience into Katie's Krops, a national youth movement aimed at ending hunger one vegetable garden at a time. Katie's Cabbage reminds us of how small things can grow and thrive when nurtured with tender loving and care and of how one person, with the support of family, friends, and community, can help make a powerful difference in the lives of so many.

Katie's Cabbage was illustrated by Karen Heid, associate professor of art education at the University of South Carolina School of Visual Art and Design. Editorial assistance was provided by Michelle H. Martin, a dedicated gardener and the Augusta Baker Chair in Childhood Literacy at the University of South Carolina School of Library and Information Science. Patricia Moore-Pastides, First Lady of the University of South Carolina and author of *Greek Revival from the Garden: Growing and Cooking for Life*, offers a foreword about her friendship with Katie and her admiration of Katie's dream to end hunger one garden at a time.

end of its civil war in 2002. It entails the history of Sierra Leone from its days as a slave harbor through to its founding as a home for free slaves, and toward its political independence and civil war. In 1462, the country was discovered by a Portuguese explorer, Pedro de Sintra, who named it Serra Lyoa (Lion Mountains). Sierra Leone later became a lucrative hub for the Transatlantic Slave Trade. At the end of slavery in England, Freetown was selected as a home for the Black Poor, free slaves in England after the Somerset ruling. The Black Poor were joined by the Nova Scotians, American slaves who supported or fought with the British during the American Revolution. The Maroons, rebellious slaves from Jamaica,

arrived in 1800. The Recaptives, freed in enforcement of British antislavery laws, were also taken to Freetown. Freetown became a British colony in 1808 and Sierra Leone obtained political independence from Britain in 1961. The development of the country was derailed by the death of its first Prime Minister, Sir Milton Margai, and thirty years after independence the country collapsed into a brutal civil war.
