*Artificial Intelligence in Banking*

Introbooks 2020-04-07 In these highly competitive times and with so many technological advancements, it is impossible for any industry to remain isolated and untouched by innovations. In this era of digital economy, the banking sector cannot exist and operate without the various digital tools offered by the ever new innovations happening in the field of Artificial Intelligence (AI) and its sub-set technologies. New technologies have enabled incredible progression in the finance industry. Artificial Intelligence (AI) and Machine Learning (ML) have provided the investors and customers with more innovative tools, new types of financial products and a new potential for growth. According to Cathy Bessant (the Chief Operations and Technology Officer, Bank of America), AI is not just a technology discussion. It is also a discussion about data and how it is used and protected. She says, "In a world focused on using AI in new ways, we're focused on using it wisely and responsibly."

**Praying with One Eye Open** Mary Ella Engel 2019-07-15 In 1878, Elder Joseph Standing traveled into the Appalachian mountains of North Georgia, seeking converts for the

Church of Jesus Christ of Latter-day Saints. Sixteen months later, he was dead, murdered by a group of twelve men. The church refused to bury the missionary in Georgia soil; instead, he was laid to rest in Salt Lake City beneath a monument that declared, "There is no law in Georgia for the Mormons." Most accounts of this event have linked Standing's murder to the virulent nineteenth-century anti-Mormonism that also took the life of prophet Joseph Smith and to an enduring southern tradition of extralegal violence. In these writings, the stories of the men who took Standing's life are largely ignored, and they are treated as significant only as vigilantes who escaped justice. Historian Mary Ella Engel adopts a different approach, arguing that the mob violence against Standing was a local event, best understood at the local level. Her examination of Standing's murder carefully situates it in the disquiet created by missionaries' successes in the North Georgia community. As Georgia converts typically abandoned the state for Mormon colonies in the West, a disquiet situated within a wider narrative of post-Reconstruction Mormon outmigration to colonies in the West. In this rich context, the murder reveals the complex social relationships that linked North Georgians—families, kin, neighbors, and coreligionists—and illuminates how mob violence attempted to resolve the psychological dissonance and gender anxieties created by Mormon missionaries. In laying bare the bonds linking Georgia converts to the mob, Engel reveals Standing's murder as more than simply mountain lawlessness or religious persecution. Rather, the murder responds to the challenges posed by the separation of converts from their loved ones, especially the separation of women

and their dependents from heads of households.

### **Networked Collaborative Learning**

Guglielmo Trentin 2010-01-20 The sustainability of Networked Collaborative Learning (NCL) is a key topic of discussion amongst the institutions where it has been or may potentially be introduced. In order to determine the extent of NCL's sustainability, the added value university education may yield by adopting collaborative learning strategies must be quantified. In turn, an understanding of the implications NCL produces in terms of design and management is gained. After comparing NCL with other Technology Enhanced Learning (TEL) approaches and discussing the possible reasons for adopting it, a multidimensional model for the sustainability of NCL is proposed. The model is characterized by four dimensions: pedagogical approaches, e-teacher professional development, instructional design models and valuation/assessment approaches. Each of these dimensions is examined on the basis of the author's direct experience gained through applying NCL to his university teaching. Delineates a framework for NCL sustainability Provides an instructional design model for NC Describes an original approach to the evaluation of collaborative learning processes

### Deconstructing the Cherokee Nation

Tyler Boulware 2015-08-15 "Boulware imaginatively shows how clan, town, and regional loyalties defined Cherokee society deep into the eighteenth century. During these decades the Cherokees were hardly a singular identity, as local communities and geopolitical divisions structured society and only hesitatingly allowed for a national community to emerge."--Andrew K. Frank, Florida State University "By

exploring how village and regional affiliations shaped Cherokee life, Boulware illuminates the multilayered and dynamic nature of nationhood and Native self-definition. His nuanced analysis should lead all Native studies scholars to reconsider the persistent power of localism in Indian country."--Christina Snyder, Indiana University This significant contribution to Cherokee studies examines the tribe's life during the eighteenth century, up to the Removal. By revealing town loyalties and regional alliances, Tyler Boulware uncovers a persistent identification hierarchy among the colonial Cherokee. Boulware aims to fill the gap in Cherokee historical studies by addressing two significant aspects of Cherokee identity: town and region. Though other factors mattered, these were arguably the most recognizable markers by which Cherokee peoples structured group identity and influenced their interactions with outside groups during the colonial era. This volume focuses on the understudied importance of social and political ties that gradually connected villages and regions and slowly weakened the localism that dominated in earlier decades. It highlights the importance of borderland interactions to Cherokee political behavior and provides a nuanced investigation of the issue of Native American identity, bringing geographic relevance and distinctions to the topic. Tyler Boulware is assistant professor of history at West Virginia University.

*A Life of Experimental Economics, Volume I* Vernon L. Smith 2018-11-23 This book provides an intimate history of Nobel Laureate Vernon Smith's early life, combining elements of biography, history, economics and philosophy to show how crucial incidents early in his life

provided the necessary framework for his research into experimental economics. Smith takes the reader from his family roots on the railroads and oil fields of Middle America to his early life on a farm in Depression-wracked Kansas. A mediocre student in high school, Smith attended Friends University, on Wichita's west side, where an intense study of mathematics, physics, chemistry, and astronomy enabled him to pass the examinations to enter Caltech and study under luminary scientists like Linus Pauling. Eventually Smith discovered economics and pursued graduate study in the field at University of Kansas and Harvard. This volume ends with his Camelot years at Purdue, where he began his famous work in experimental economics, nurturing his research into an unlikely new field of economics.

**College Physics, Volume 1** Nicholas Giordano 2012-01-01 COLLEGE PHYSICS: REASONING AND RELATIONSHIPS motivates student understanding by emphasizing the relationship between major physics principles, and how to apply the reasoning of physics to real-world examples. Such examples come naturally from the life sciences, and this text ensures that students develop a strong understanding of how the concepts relate to each other and

to the real world. COLLEGE PHYSICS: REASONING AND RELATIONSHIPS motivates student learning with its use of these original applications drawn from the life sciences and familiar everyday scenarios, and prepares students for the rigors of the course with a consistent five-step problem-solving approach. Available with this Second Edition, the new Enhanced WebAssign program features ALL the quantitative end-of-chapter problems and a rich collection of Reasoning and Relationships tutorials, personally adapted for WebAssign by Nick Giordano. This provides exceptional continuity for your students whether they choose to study with the printed text or by completing online homework. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

**The Adventures of a Cello** Carlos Prieto 2011-03-29 In 1720, Antonio Stradivari crafted an exquisite work of art—a cello known as the Piatti. Over the next three centuries of its life, the Piatti cello left its birthplace of Cremona, Italy, and resided in Spain, Ireland, England, Italy, Germany, and the United States. In 1978, the Piatti became the musical soul mate of world-renowned cellist Carlos Prieto, with whom it has given concerts around the world. In this delightful book, Mr. Prieto recounts the adventurous life of his beloved "Cello Prieto," tracing its history through each of its previous owners from Stradivari in 1720 to himself. He then describes his noteworthy experiences of playing the Piatti cello, with which he has premiered some eighty compositions. In this part of their mutual story, Prieto gives a concise summary of his own remarkable career and his relationships with many illustrious personalities, including Igor

Stravinsky, Dmitry Shostakovich, Pablo Casals, Mstislav Rostropovich, Yo-Yo Ma, and Gabriel García Márquez. A new epilogue, in which he describes recent concert tours in Moscow, Siberia, and China and briefer visits to South Korea, Taiwan, and Venezuela, as well as recent recitals with Yo-Yo Ma, brings the story up to 2009. To make the story of his cello complete, Mr. Prieto also provides a brief history of violin making and a succinct review of cello music from Stradivari to the present. He highlights the work of composers from Latin America, Spain, and Portugal, for whose music he has long been an advocate and principal performer. The print edition of this book includes a CD of fourteen recordings by Carlos Prieto, including works by J. S. Bach, Dmitry Shostakovich, Astor Piazzolla, and Eugenio Toussaint.

**The Adventures of a Cello** Carlos Prieto 2006-10 In 1720, Antonio Stradivari crafted an exquisite work of art—a cello known as the Piatti. Over the next three centuries of its life, the Piatti cello left its birthplace of Cremona, Italy, and resided in Spain, Ireland, England, Italy, Germany, and the United States. The Piatti filled sacred spaces, such as the Santa Cueva de Cádiz, with its incomparable voice. It also spent time in more profane places, including New York City bars, where it served as a guarantee for unpaid liquor tabs. The Piatti narrowly escaped Nazi Germany in 1935 and was once even left lying in the street all night. In 1978, the Piatti became the musical soul mate of world-renowned cellist Carlos Prieto, with whom it has given concerts around the world. In this delightful book, Mr. Prieto recounts the adventurous life of his beloved "Cello Prieto," tracing its history through each of its previous owners from Stradivari in 1720 to himself.

He then describes his noteworthy experiences of playing the Piatti cello, with which he has premiered some eighty compositions. In this part of their mutual story, Prieto gives a concise summary of his own remarkable career and his relationships with many illustrious personalities, including Igor Stravinsky, Dmitry Shostakovich, Pablo Casals, Mstislav Rostropovich, Yo-Yo Ma, and Gabriel García Márquez. To make the story of his cello complete, Mr. Prieto also provides a brief history of violin making and a succinct review of cello music from Stradivari to the present. He highlights the work of composers from Latin America, Spain, and Portugal, for whose music he has long been an advocate and principal performer. Thus, *The Adventures of a Cello* offers not only the first biography of a musical instrument but also an inviting overview of cello music and its preeminent composers and performers.

**Ugly Ronney** Sandra Kiss 2021-06-22 Ronney is an introverted young woman with a disgraceful appearance. She lives humbly in one of the poorest neighborhoods of Sheryl Valley, a town corrupted by the mafia in Southern California. With no diploma, she works hard in her parents' restaurant and provides voice-overs for children's animated movies during the weekend. In accordance with a long-standing family tradition, Ronney's twenty-fifth birthday celebration comes with a dare from her cousins: she must knock on the front door of the infamous Khan household. The Khans' reputation precedes them, rumored to be in association with the mafia. But when Ronney knocks on the door, before she has the chance to run, the Khan family matriarch, Camilia, takes an interest in Ronney. Ronney's lack of conventional beauty and disinterest

in fashion draws Camilia in, leading her to offer Ronney the position of personal assistant to her eldest son, Yeraz, with a substantial salary at stake. It's an offer Ronney cannot refuse. To keep her job, Ronney's task is simple: do not fall in love with Yeraz. "Easy," she thinks. But what if destiny decides otherwise? *Ugly Ronney* is a romance in which the heroes enter the gallery of legendary lovers.

Book of Rhymes Adam Bradley 2017-06-27 If asked to list the greatest innovators of modern American poetry, few of us would think to include Jay-Z or Eminem in their number. And yet hip hop is the source of some of the most exciting developments in verse today. The media uproar in response to its controversial lyrical content has obscured hip hop's revolution of poetic craft and experience: Only in rap music can the beat of a song render poetic meter audible, allowing an MC's wordplay to move a club-full of eager listeners. Examining rap history's most memorable lyricists and their inimitable techniques, literary scholar Adam Bradley argues that we must understand rap as poetry or miss the vanguard of poetry today. *Book of Rhymes* explores America's least understood poets, unpacking their surprisingly complex craft, and according rap poetry the respect it deserves.

*The Third Wave of Historical Scholarship on Nigeria* Saheed Aderinto 2013-02-22 This festschrift in honor of Professor Ayodeji Olukoju, one of Nigeria's brightest historians, brings together scholarship representative of the third wave of historical scholarship on Nigeria. Olukoju, a pioneering historian of Nigerian maritime history, also produced significant revisionist scholarship in the areas of economic, urban, and

infrastructure history. The contributions in this volume epitomize the groundbreaking directions of his career; they are marked by a search for new explanations and venture into uncharted terrain in Nigerian history. Aside from its critical engagement of Olukoju's impressive scholarship, this volume presents chapters on such underresearched aspects of Nigerian history as sexuality, children and youth, crime, memory, and HIV/AIDS. It offers historical explanations of a host of development challenges confronting Nigeria, Africa's most populous country, and resilient reinterpretations of the place of history in nation building. The contributors, pioneering experts in their various subfields, bring their research and teaching experience to the fore and deploy neglected data as they unfold topics that shed light on Nigeria, its peoples, and cultures. They show that history, both as a daily practice and as an academic endeavor, remains vital as Africans seek solutions to the continent's critical development challenges.

*Waiting Laughters* Niyi Osundare 1990  
Waiting Laughters is Osundare's second volume of poetry, published to critical acclaim. In 1991, it won The Noma Award for Publishing in Africa, the most prestigious book prize for new works published within the African continent. The collection is conceived as a poetic response to the gloom and despair gripping contemporary African society: the poems emphasise the possibility of laughter and its diverse manifestations. The style of the poetry is reflective of oral and Yoruba literary traditions.

#### **The South Korean Film Renaissance**

Jinhee Choi 2011-07-21 For the past decade, the Korean film industry has enjoyed a renaissance. With innovative storytelling and visceral effects, Korean films not only have been commercially viable in the domestic and regional markets but also have appealed to cinephiles everywhere on the international festival circuit. This book provides both an industrial and an aesthetic account of how the Korean film industry managed to turn an economic crisis—triggered in part by globalizing processes in the world film industry—into a fiscal and cultural boom. Jinhee Choi examines the ways in which Korean film production companies, backed by affluent corporations and venture capitalists, concocted a variety of winning production trends. Through close analyses of key films, Choi demonstrates how contemporary Korean cinema portrays issues immediate to its own Korean audiences while

incorporating the transnational aesthetics of Hollywood and other national cinemas such as Hong Kong and Japan. Appendices include data on box office rankings, numbers of films produced and released, market shares, and film festival showings.

Rolando Hinojosa's Klail City Death Trip Series Stephen Miller 2013

Mirroring the linguistic and cultural evolution of those living on the Texas-Mexico border, Rolando Hinojosa's Klail City Death Trip Series examines relations between Mexican Americans and Anglo Americans born and raised in the fictional Rio Grande Valley town of Klail City Texas. Depicting the transformation of a place and its people "from a sleepy agricultural and ranching backwater of Mexican and American society and history" over a 30-year period, the series comprises fifteen books, published between 1973 and 2006, and reflects the importance of the growing Hispanic population in the U.S. The people of Hinojosa's Klail City, which has been compared to William Faulkner's Yoknapatawpha County and Gabriel García Márquez's Macondo, have dealt with the same issues as their real-life counterparts living along the border, including discrimination, generational change, drug violence and the quest for women's rights. The editors of this scholarly volume assert in their introduction that the series, with volumes in English, Spanish and a mix of both languages,

"may well be the most innovative and complex project of literary creation ever conceived and realized by a writer based in the United States." The eleven essays in this volume consider both broad and specialized aspects of the Klail City Death Trip Series. Divided into two sections, the chapters in the first half examine the series as a whole and look at general topics such as cultural hybridity, the individual's needs versus those of society and the influence of Hispanic literary tradition on Hinojosa's work. The essays in the second half explore more specific aspects, including Klail City youth going to war, women's search for autonomy in the face of societal and familial tradition and a comparison of Hinojosa's The Valley with Larry McMurtry's The Last Picture Show as examples of Hispanic and Anglo literary traditions that developed in the same region. Also included is an interview with Rolando Hinojosa, the Ellen Clayton Garwood Professor of Creative Writing at the University of Texas at Austin. He is the recipient of numerous literary awards, including the most prestigious prize in Latin American fiction, Casa de las Américas, for the best Spanish American novel in 1976 and the Premio Quinto Sol, the National Award for Chicano Literature, in 1972. This collection is an essential tool for scholars and students alike in understanding the work of Rolando Hinojosa and the people living a bilingual, bicultural life along the Texas-Mexico border.

**Neural Networks for Beginners** Russel R Russo 2019-11-06 Do you want to understand Neural Networks and learn everything about them but it looks like it is an exclusive club? Are you fascinated by Artificial Intelligence but you think that it would be too difficult for you to learn? If you think that Neural Networks and Artificial Intelligence are the present and, even more, the future of technology, and you want to be part of it... well you are in the right place, and you are looking at the right book. If you are reading these lines you have probably already noticed this: Artificial Intelligence is all around you. Your smartphone that suggests you the next word you want to type, your Netflix account that recommends you the series you may like or Spotify's personalised playlists. This is how machines are learning from you in everyday life. And these examples are only the surface of this technological revolution. Either if you want to start your own AI enterprise, to empower your business or to work in the greatest and most innovative companies, Artificial Intelligence is the future, and Neural Networks programming is the skill you want to have. The good news is that there is no exclusive club, you can easily (if you commit, of course) learn how to program and use neural networks, and to do that Neural Networks for Beginners is the perfect way. In this book you will learn: The types and components of neural networks The smartest way to approach neural network programming Why Algorithms are your friends The "three Vs" of Big Data (plus two new Vs) How machine learning will help you making predictions The three most common

problems with Neural Networks and how to overcome them Even if you don't know anything about programming, Neural Networks is the perfect place to start now. Still, if you already know about programming but not about how to do it in Artificial Intelligence, neural networks are the next thing you want to learn. And Neural Networks for Beginners is the best way to do it. Download Neural Network for Beginners now to get the best start for your journey to Artificial Intelligence. **The Warrior's Camera** Stephen Prince 1991 The Japanese film director Akira Kurosawa, who died at the age of 88, has been internationally acclaimed as a giant of world cinema. Rashomon, which won both the Venice Film Festival's grand prize and an Academy Award for best foreign-language film, helped ignite Western interest in the Japanese cinema. Seven Samurai and Yojimbo remain enormously popular both in Japan and abroad. In this newly revised and expanded edition of his study of Kurosawa's films, Stephen Prince provides two new chapters that examine Kurosawa's remaining films, placing him in the context of cinema history. Prince also discusses how Kurosawa furnished a template for some well-known Hollywood directors, including Martin Scorsese, Steven Spielberg, and George Lucas. Providing a new and comprehensive look at this master filmmaker, The Warrior's Camera probes the complex visual structure of Kurosawa's work. The book shows how Kurosawa attempted to symbolize on film a course of national development for post-war Japan, and it traces the ways that he tied his social visions to a dynamic system of visual and narrative forms. The author analyzes Kurosawa's entire career and places the films in

context by drawing on the director's autobiography--a fascinating work that presents Kurosawa as a Kurosawa character and the story of his life as the kind of spiritual odyssey witnessed so often in his films. After examining the development of Kurosawa's visual style in his early work, *The Warrior's Camera* explains how he used this style in subsequent films to forge a politically committed model of filmmaking. It then demonstrates how the collapse of Kurosawa's efforts to participate as a filmmaker in the tasks of social reconstruction led to the very different cinematic style evident in his most recent films, works of pessimism that view the world as resistant to change. -- "Choice"

The Evolution of American Educational Technology Paul Saettler 2004-03-01 The primary purpose of this book is to trace the theoretical methodological foundations of American educational technology. It must be emphasized that this work is essentially as history of the process of educational technology rather than of products in the form of devices or media. Although media have played an important role in educational technology, the reader should not lose sight of the central process which characterizes and underlies the true historical meaning and function of educational technology. Moreover, the assumption is made that all current theory, methodology, and practice rests upon the heritage of the past. Indeed, a common problem in the field has been the failure, in many instances, to take adequate account of past history in planning

for the present or the future. A related purpose of this book is to provide a selective survey of research in educational technology as it relates to the American public schools. Such research reviews are not intended to be comprehensive, but were included because of their historical importance and their relevance in understanding the process of educational technology.

**The Year in Television, 2008** Vincent Terrace 2009-06-08 In 2008, the broadcast networks, cable channels and syndication produced nearly 1,100 new and continuing entertainment programs—the most original productions in one year since the medium first took hold in 1948. This reference book covers all the first run entertainment programs broadcast over the airwaves and on cable from January 1 through December 31, 2008, including series, specials, miniseries, made-for-television movies, pilot films, Internet series and specialized series (those broadcast on gay and lesbian channels). Alphabetically arranged entries provide storylines, performer/character casts, production credits, day/month/year broadcast dates, type, length, network(s), and review excerpts.

Say's Law and the Keynesian

Revolution Steven Kates 2009 'In this fascinating and well-researched book, Kates takes issue with the standard Keynesian interpretation of Say's law of markets.' - Thomas M. Humphrey, the Economic Journal 'A first rate and scholarly study. Its discussion of the role, interpretation and misinterpretation of Say's Law in the

Keynesian and subsequent literature is particularly valuable. No other source throws as much light on these more-recent writings or examines them more systematically.' - William J. Baumol, New York University and Princeton University, US

*Africa's Public Service Delivery and Performance Review Journal* Edwin Ijeoma 2013-09 Africa's Public Service Delivery and Performance Review (APSDPR) is a journal in the niche area of Public Service Monitoring and Evaluation published by the Independent Service Delivery Monitoring Networks (ISDMN) in collaboration with the Department of Public Administration of the University of Fort Hare. The journal is a peer reviewed journal, aimed at the promotion and sharing of knowledge, skills and innovations in government and the wider Public Sector environment in South Africa and abroad. With a multi disciplinary outlook, the journal will stimulate service delivery and scholarly debate with a view to addressing myriads of service delivery and performance challenges being faced in government. The journal aims at providing an innovative approach to Monitoring and Evaluation scholarship through independent monitoring of implementable interventions around public service delivery and its expected outcomes. It thus envisages a role towards the turning point in bridging the gaps that exist between Public Service Delivery and the envisaged "trickle down effects" on the targeted beneficiaries.

**Intimate Relationships** Sharon S. Brehm 2001-08 *Intimate Relationships*, 3rd edition, by Sharon S. Brehm, Rowland S. Miller, Daniel Perlman, and Susan Campbell preserves the personal appeal of the subject matter and vigorous standards of scholarship that made the earlier editions so successful. Written in a unified

voice, this text builds on the reader-friendly tone that was established in the first two editions. It presents the key findings on intimate relationships, the major theoretical perspectives, and some of the current controversies in the field. Brehm, Miller, Perlman, and Campbell illustrate the relevance of close relationship science to readers' everyday lives, encouraging thought and analysis. Classic contributions to the field are covered in addition to topics on the leading edge of research.

**Grandad Mandela** Ambassador Zindzi Mandela 2018-06-28 "...profoundly moving..." -Publishers Weekly Nelson Mandela's two great-grandchildren ask their grandmother, Mandela's youngest daughter, 15 questions about their grandad – the global icon of peace and forgiveness who spent 27 years in prison. They learn that he was a freedom fighter who put down his weapons for the sake of peace, and who then became the President of South Africa and a Nobel Peace Prize-winner, and realise that they can continue his legacy in the world today. Seen through a child's perspective, and authored jointly by Nelson Mandela's great-grandchildren and daughter, this amazing story is told as never before to celebrate what would have been Nelson's Mandela 100th birthday.

Curriculum Overload A Way Forward OECD 2020-11-25 Schools are constantly under pressure to keep up with the pace of changes in society. In parallel, societal demands for what schools should teach are also constantly changing; often driven by political agendas, ideologies, or parental pressures, to add global competency, digital literacy, data literacy, environmental literacy, media literacy, social-emotional skills, etc. This "curriculum expansion" puts pressure on policy

makers and schools to add new contents to already crowded curriculum.

**World Cinema and the Ethics of Realism** Lúcia Nagib 2011-01-20 World Cinema and the Ethics of Realism is a highly original study. Traditional views of cinematic realism usually draw on the so-called classical cinema and its allegiance to narrative mimesis, but Nagib challenges this, drawing instead on the filmmaker's commitment to truth and to the film medium's material bond with the real. Starting from the premise that world cinema's creative peaks are governed by an ethics of realism, Nagib conducts comparative case studies picked from world new waves, such as the Japanese New Wave, the French nouvelle vague, the Cinema Novo, the New German Cinema, the Russo-Cuban Revolutionary Cinema, the Portuguese self-performing auteur and the Inuit Indigenous Cinema. Drawing upon Badiou and Rancière, World Cinema and the Ethics of Realism revisits and reformulates several fundamental concepts in film studies, such as illusionism, identification, apparatus, alienation effects, presentation and representation. Its groundbreaking scholarship takes film theory in a bold new direction.

Critical Issues in South African Education Charl C. Wolhuter 2020-12-31 The main thesis of this book is that, given that South African education faces major challenges, the BRICS (Brazil, Russia, India, China and South Africa) constellation of states offers – thus far overlooked – a valuable tertium comparationis, a source of international comparative perspectives, to inform the domestic scholarly discourse on education. This book first investigates the national contexts and development of education in the BRICS countries, arguing that this grouping represents

a valuable but yet overlooked field for illuminating South African education issues with international perspectives. The book consists of chapters arguing for and illustrating this thesis from a variety of angles. Common to all chapters is that authors used the comparative method in education, that is comparing the national education system, in their education societal context interrelationships, of the BRICS countries. The chapters focus on a number of critical issues in South African education, including the

language of learning and teaching issue, the alignment of the world of education with the world of work, early childhood education, and the development of world-class universities. Regarding the last, for example, China has been the terrain of the most intensive national projects of establishing world-class universities, with Project 985, Project 211, and the “Double First Class University” project. The chapters demonstrate what South Africa, in approaching her education issues, can learn from the experience of the BRICS countries.
