The Color Bind Erica Gabrielle Foldy 2014-02-28 Since the 1960s, the dominant model for fostering diversity and inclusion in the United States has been the “color blind” approach, which emphasizes similarity and assimilation and insists that people should be understood as individuals, not as members of racial or cultural groups. This approach is especially prevalent in the workplace, where discussions about race and ethnicity are considered taboo. Yet, as widespread as “color blindness” has become, many studies show that the practice has damaging repercussions, including reinforcing the existing racial hierarchy by ignoring the significance of racism and discrimination. In *The Color Bind*, workplace experts Erica Foldy and Tamara Buckley investigate race relations in office settings, looking at how both color blindness and what they call “color cognizance” have profound effects on the ways coworkers think and interact with each other. Based on an intensive two-and-a-half-year study of employees at a child welfare agency, *The Color Bind* shows how color cognizance—the practice of recognizing the profound impact of race and ethnicity on life experiences while affirming the importance of racial diversity—can help workers move beyond silence on the issue of race toward more inclusive workplace practices. Drawing from existing psychological and sociological research that demonstrates the success of color-cognizant

approaches in dyads, workgroups and organizations, Foldy and Buckley analyzed the behavior of work teams within a child protection agency. The behaviors of three teams in particular reveal the factors that enable color cognizance to flourish. While two of the teams largely avoided explicitly discussing race, one group, “Team North,” openly talked about race and ethnicity in team meetings. By acknowledging these differences when discussing how to work with their clients and with each other, the members of Team North were able to dig into challenges related to race and culture instead of avoiding them. The key to achieving color cognizance within the group was twofold: It required both the presence of at least a few members who were already color cognizant, as well as an environment in which all team members felt relatively safe and behaved in ways that strengthened learning, including productively resolving conflict and reflecting on their practice. *The Color Bind* provides a useful lens for policy makers, researchers and practitioners pursuing in a wide variety of goals, from addressing racial disparities in health and education to creating diverse and inclusive organizations to providing culturally competent services to clients and customers. By foregrounding open conversations about race and ethnicity, Foldy and Buckley show that institutions can transcend the color bind in order to better acknowledge and reflect the diverse populations they serve.

American Chew Matthew Lippman 2013 Poetry. "Matthew Lippman's poems know how to love as only a heart knows how to love. Swelling with rage, candor, humor, and empathy, his lyrics embrace vulnerability and grit that navigate the mire that the world lays before us each day. Their music makes singular reconciliations where anxiety and angst are lent a tough and tender grace."—Michael Morse "Reading a Matthew Lippman poem is like encountering an unstoppable force—or forces. One moment you're walking down Broadway next to an old friend who's talking a mile a minute—he's on a tear, he's manic but eminently likable, and his monologue is heating up to the point of combustion. Another moment you're listening to a voiceover spoken by a hardboiled and vaguely hypnagogic private eye. And yet another moment you're at the Tamarack Lodge in a Catskills of long ago listening to a crazed Borscht Belt comedian. And finally you're listening to a mystic intoning prophecies from deep in the reaches of a dream. I love poetry that takes me through such a range of voices, guises, poses, intensities, and diapasons, yet also manages to make me feel that I am in the presence of a truly human and truly real and singular personality. These poems were written by a man who takes much pleasure in moving through this mysterious world in language and in a body. He wants to share this pleasure with us—and that is generous, and as good a reason for writing poems as any I can think of."—Geoffrey Nutter "Matthew's poems wake us up with brutal honesty and humor. If you think poetry has lost touch with everyday life, this book will restore your faith and welcome you back."—Rob MacDonald
