Military Inc Ayesha Siddiqa-Agha 2017 Pakistan is a strategic ally of the US in the 'war on terror'. It is the third largest recipient of US aid in the world. Yet Pakistan is a state run by its army and intelligence service. Operating in the shadows, Pakistan's military industrial complex owns and controls swathes of the economic and political landscape of the country. Military Inc. dares to illuminate the military as an oppressive holding company possessing not just security-related businesses, but also hotels, shopping malls, insurance companies, banks, farms and even an airline. The result is a deeply undemocratic society, where money is funnelled towards the military's economic enterprises, leaving those in need of it impoverished and effectively disenfranchised. With an empirical richness, and a view to Pakistan's recent history, Ayesha Siddiqa offers a detailed and powerful case study of a global phenomenon: corruption, hollow economic growth and elitism. This new edition includes a chapter on the recent developments of the military's foray into the media, and a new preface.

Dengue and Dengue Hemorrhagic Fever, 2nd Edition Duane J. Gubler 2014-08-29 Continued geographic expansion of dengue viruses and their mosquito vectors has seen the magnitude and frequency of epidemic dengue/dengue hemorrhagic fever (DF/DHF) increase dramatically. Recent exciting research on dengue has resulted in major advances in our understanding of all aspects of the biology of these viruses, and this updated second edition brings together leading research and clinical scientists to review dengue virus biology, epidemiology, entomology, therapeutics, vaccinology and clinical management.

Assistive Technology Assessment Handbook Stefano Federici 2017-11-23 Assistive Technology Assessment Handbook, Second Edition, proposes an international ideal model for the assistive technology assessment process, outlining how this model can be applied in practice to re-conceptualize the phases of an assistive technology delivery system according to the biopsychosocial model of disability. The model provides reference guidelines for evidence-based practice, guiding both public and private centers that wish to compare, evaluate, and improve their ability to match a person with the correct technology model. This second edition

also offers a contribution to the Global Cooperation on Assistive Technology (GATE) initiative, whose activities are strongly focused on the assistive products service delivery model. Organized into three parts, the handbook: gives readers a toolkit for performing assessments; describes the roles of the assessment team members, among them the new profession of psychotechnologist; and reviews technologies for rehabilitation and independent living, including brain-computer interfaces, exoskeletons, and technologies for music therapy. Edited by Stefano Federici and Marcia J. Scherer, this cross-cultural handbook includes contributions from leading experts across five continents, offering a framework for future practice and research.

Music, Lyrics, and Life Mike Errico 2021-11-01 Music, Lyrics, and Life is the songwriting class you always wish you'd taken, taught by the professor you always wish you'd had. It's a deep dive into the heart of questions asked by songwriters of all levels, from how to begin journaling to when you know that a song is finished. With humor and empathy, acclaimed singer-songwriter Mike Errico unravels both the mystery of songwriting and the logistics of life as a songwriter. For years, this set of tools, prompts, and ideas has inspired students on campuses including Yale, Wesleyan, Berklee, Oberlin, and NYU's Clive Davis Institute of Recorded Music. Alongside his own lessons, Errico interviews the writers, producers, and A&R executives behind today's biggest hits and investigates the larger questions of creativity through lively conversations with a wide range of innovative thinkers: astrophysicist Janna Levin explains the importance of repetition, both in choruses and in the exploration of the universe; renowned painter John Currin praises the constraints of form, whether it's within a right-angled canvas or a three-minute pop song; bestselling author George Saunders unpacks the hidden benefit of writing, and revising, authentically; and much more. The result is that Music, Lyrics, and Life ends up revealing as much about the art of songwriting as it does about who we are, and where we may be going. This is a book for songwriters, future content creators, music lovers, and anyone who wants to understand how popular art forms are able to touch us so deeply. Mike Errico has honed these lessons over years of writing, performing, teaching, and mentoring, and no matter where you are on your songwriting journey, Music, Lyrics, and Life will help you build a creative world that's both intrinsic to who you are, and undeniable to whoever is listening.

Petroleum Engineer's Guide to Oil Field Chemicals and Fluids

Johannes Fink 2011-05-13 Petroleum Engineer's Guide to Oil Field Chemicals and Fluids is a comprehensive manual that provides end users with information about oil field chemicals, such as drilling muds, corrosion and scale inhibitors, gelling agents and bacterial control. This book is an extension and update of Oil Field Chemicals published in 2003, and it presents a compilation of materials from literature and patents, arranged according to applications and the way a typical job is practiced. The text is composed of 23 chapters that cover oil field chemicals arranged according to their use. Each chapter follows a uniform template, starting with a brief overview of the chemical followed by reviews, monomers, polymerization, and fabrication. The different aspects of application, including safety and environmental impacts, for each chemical are also discussed throughout the chapters. The text also includes handy indices for trade names, acronyms and chemicals. Petroleum, production, drilling, completion, and operations engineers and managers will find this book invaluable for project management and production. Non-experts and students in petroleum engineering will also find this reference useful. Chemicals are ordered by use including drilling muds, corrosion inhibitors, and bacteria control Includes cutting edge chemicals and polymers such as water soluble polymers and viscosity control Handy index of chemical substances as well as a general chemical index

Eat My Dust Georgine Clarsen 2008-08-26 The history of the automobile would be incomplete without considering the influence of the car on the

lives and careers of women in the earliest decades of the twentieth century. Illuminating the relationship between women and cars with case studies from across the globe, *Eat My Dust* challenges the received wisdom that men embraced automobile technology more naturally than did women. Georgine Clarsen highlights the personal stories of women from the United States, Britain, Australia, and colonial Africa from the early days of motoring until 1930. She notes the different ways in which these women embraced automobile technology in their national and cultural context. As mechanics and taxi drivers -- like Australian Alice Anderson and Brit Sheila O'Neil -- and long-distance adventurers and political activists -- like South Africans Margaret Belcher and Ellen Budgell and American suffragist Sara Bard Field -- women sought to define the technology in their own terms and according to their own needs. They challenged traditional notions of femininity through their love of cars and proved they were articulate, confident, and mechanically savvy motorists in their own right. More than new chapters in automobile history, these stories locate women motorists within twentieth-century debates about class, gender, sexuality, race, and nation. -- Deborah Clarke

Public Brainpower Indra Overland 2017-10-26 This book discusses how civil society, public debate and freedom of speech affect the management of natural resources. Drawing on the work of Robert Dahl, Jürgen Habermas and Robert Putnam, the book introduces the concept of public brainpower. Good governance of natural resources requires fertile public debate - to conceive new institutions, to provide checks and balances on existing institutions and to ensure their continuous dynamic evolution as the needs of society change. The book explores the strengths and weaknesses of these ideas through case studies of 18 oil and gas-producing countries: Algeria, Angola, Azerbaijan, Canada, Colombia, Egypt, Iraq, Kazakhstan, Libya, the Netherlands, Nigeria, Norway, Qatar, Russia, Saudi Arabia, the UAE, the UK and Venezuela. The concluding chapter presents 10 tenets on how states can maximize their public brainpower, as well as a ranking of how well 33 resource-rich countries have succeeded in doing so. Four of the chapters - 'Introduction', 'Norway', 'Kazakhstan' and 'Russia' - are available under a CC BY 4.0 Open Access license at link.springer.com.

Disaster Risk Reduction Approaches in Pakistan Atta-Ur- Rahman 2015-01-20 This book is a pioneering regional work and provides a balanced approach of theory and practice in disaster risk reduction (DRR) in Pakistan. The book analytically discusses the status of DRR and draws examples and lessons from national and community-level programs and projects and events in the country. The book covers different types of disasters facing Pakistan, including geo-physical and hydro-meteorological hazards. This work incorporates and draws some of the key lessons learned from the pre-disaster and disaster phases to the post-disaster phase, providing an effective framework in the form of those lessons. The rich content is based on a selection of available documents, a consultative workshop with academicians from different universities undertaking DRR higher education programs, and the editors' own knowledge and experience in the field. Special emphasis is given to analyzing field experiences from academic perspectives, and pinpointing key issues and the policy relevance of DRR. *Disaster Risk Reduction Approaches in Pakistan* is organized into three sections with a total of 20 chapters. Section one provides the outline and basics of DRR strategies applied at the national level with supporting examples from a global review. Section two specifically highlights the wide ranges of hazards experienced in Pakistan and presents examples, policy options, institutional set-ups, risk reduction strategies, and key lessons learned. The third section of the book is given to approaches and issues of DRR practices with examples of disaster responses.

The Vitamin A Story B. Koletzko 2012-09-04 This book shows how vitamin A deficiency - before the vitamin was known to scientists - affected millions of people throughout history. It is a story of sailors and soldiers, penniless mothers, orphaned infants, and young children left susceptible to blindness and fatal infections. We also glimpse the

fortunate ones who, with ample vitamin A-rich food, escaped this elusive stalker. Why were people going blind and dying? To unravel this puzzle, scientists around the world competed over the course of a century. Their persistent efforts led to the identification of vitamin A and its essential role in health. As a primary focus of today's international public health efforts, vitamin A has saved hundreds of thousands of lives. But, we discover, they could save many more were it not for obstacles erected by political and ideological zealots who lack a historical perspective of the problem. Although exhaustively researched and documented, this book is written for intellectually curious lay readers as well as for specialists. Public health professionals, nutritionists, and historians of science and medicine have much to learn from this book about the cultural and scientific origins of their disciplines. Likewise, readers interested in military and cultural history will learn about the interaction of health, society, science, and politics. The author's presentation of vitamin A deficiency is likely to become a classic case study of health disparities in the past as well as the present.

Urban Infrastructure and Governance G Ramesh 2020-11-30 The book contains a selection of papers on urban governance in its multiple perspectives. It has evolved from the presentations made at the Third International Conference on Public Policy and Management held in 2008. The topics are grouped into several themes: Urban Plan and Governance, Urban Governance through Partnership and Participation, and Financing Urban Infrastructure. With several examples from developing nations, the book dwells into the practical and managerial aspects of urban planning, partnerships, participation, financial mobilization and effective governance. One of the highlights of the book is that it looks at financial mobilization as a strategy for governance and how the financial system in itself can be an instrument of governance.

Armenian Jasmine Dum-Tragut 2009-12-17 This grammar of Modern Eastern Armenian gives a precise and explicit description of the Eastern Armenian language of the Republic of Armenia. It covers not only the normative tradition but, more importantly, also describes the colloquial language as it is used in Armenia today. With regard to methodological approach and terminology it fully meets the demands of modern general linguistics and typology. This grammar will be of interest not only to the specialised readership of descriptive and comparative linguists, of typologists and of armenologists, but to all those who would like to acquaint themselves with linguistic data from living Armenian. It will also be of use to students wishing to learn Modern Eastern Armenian and to lecturers in Modern Eastern Armenian language courses.

Crime Films Thomas Leitch 2002-08-15 This book surveys the entire range of crime films, including important subgenres such as the gangster film, the private eye film, film noir, as well as the victim film, the erotic thriller, and the crime comedy. Focusing on ten films that span the range of the twentieth century, Thomas Leitch traces the transformation of the three leading figures that are common to all crime films: the criminal, the victim and the avenger. Analyzing how each of the subgenres establishes oppositions among its ritual antagonists, he shows how the distinctions among them become blurred throughout the course of the century. This blurring, Leitch maintains, reflects and fosters a deep social ambivalence towards crime and criminals, while the criminal, victim and avenger characters effectively map the shifting relations between subgenres, such as the erotic thriller and the police film, within the larger genre of crime film that informs them all.

The Case against the Jones Act Colin Grabow 2020-06-11 How has an archaic, burdensome law been able to persist for a century? Passed in 1920, the Jones Act restricts the waterborne transport of cargo within the United States to vessels that are U.S.-flagged, U.S.-crewed, U.S.-owned, and U.S.-built. Meant to bolster the U.S. maritime sector, this protectionist law has instead contributed to its decline. As a result, today's U.S. oceangoing domestic fleet numbers fewer than 100 ships. Beyond leaving a shrunken and uncompetitive maritime sector in its wake, the law has also inflicted considerable damage on the broader U.S. public that range from higher transportation costs to increased pollution. The chapters in *The Case against the Jones Act* delve into some of the act's founding myths and the false narrative its supporters have helped to perpetuate. The book evaluates the law's costs, assesses its impact on businesses, consumers, and the environment, and offers alternatives for a way forward. The Jones Act's failures reveal that the status quo is untenable. Contributors to this volume hope that the evidence presented will spark discussion about the Jones Act and lay the groundwork for the repeal or significant reform of this outdated law.

The Mozart Effect Don Campbell 2009-05-05 Anyone who has ever seen a two-year-old start bouncing to a beat knows that music speaks to us on a very deep level. But it took celebrated teacher and music visionary Don Campbell to show us just how deep, with his landmark book *The Mozart Effect*. Stimulating, authoritative, and often lyrical, *The Mozart Effect* has a simple but life-changing message: music is medicine for the body, the mind, and the soul. Campbell shows how modern science has begun to confirm this ancient wisdom, finding evidence that listening to certain

types of music can improve the quality of life in almost every respect. Here are dramatic accounts of how music is used to deal with everything from anxiety to cancer, high blood pressure, chronic pain, dyslexia, and even mental illness. Always clear and compelling, Campbell recommends more than two dozen specific, easy-to-follow exercises to raise your spatial IQ, "sound away" pain, boost creativity, and make the spirit sing! *Health, Safety and Well-Being of Workers in the Informal Sector in India* Sigamani Panneer 2019-07-25 This book focuses on the core problems of occupational health, safety and well-being of workers in the informal sector in developing countries, where it accounts for most of the rural labour force and a substantial percentage of the urban labour force. The sector is characterised by low incomes, unstable employment and lack of protection in the form of legislation/policies or trade unions. Though some health and problem-solving measures have been introduced, a focused academic effort to address the problems confronting workers in the unorganised sector, or informal economy, is lacking. The book evaluates workers' physical and mental health in the context of labour migration, social inclusion of minorities and the differently abled, provisions for women workers, demonetisation, occupational safety for hazardous work, and in connection with various areas of informal work, e.g. agriculture, construction, transportation, sanitation, tanning, the tobacco industry, powerloom industry, surrogacy, and self-employment. It provides a well-rounded description of an analytical reflection on the challenges these workers face and focuses on social policy changes to help alleviate them. Accordingly, it offers a valuable asset for researchers and students interested in development studies, the sociology of work, health and labour economics, public health, and social work.

Sapphic Modernities L. Doan 2006-06-10 An examination of the representation of the lesbian in modernity from the multiple perspectives of literary, visual and cultural studies, this book shows how the sapphic figure, in her multiple and contradictory guises, refigured and redefined citizenship in the early decades of the twentieth century.

Social Entrepreneurship and Corporate Social Responsibility Joan Marques 2020-07-05 This book provides professionals, as well as students, with the understanding that Social Entrepreneurship and Corporate Social Responsibility (CSR) are now core business principles for sustainably. It encourages social entrepreneurs in their role as forerunners, in creating new business models that develop, facilitate or implement constructive solutions to social, cultural and environmental issues. At the same time, this book views corporate social responsibility as a means of challenging existing entities to realize and modify prior unsustainable and predatory business models; and to increase social, cultural and environmental accountability. By linking these two concepts, this book prompts a paradigmatic awakening, whereby the foundational driver of business creation and management no longer rests on profit maximization, but on improvement of the quality of life for society.

In 1926 Hans Ulrich GUMBRECHT 2009-06-30 In this thoroughly innovative work, Hans Ulrich Gumbrecht evokes the year 1926 through explorations of such things as bars, boxing, movie palaces, hunger artists, airplanes, hair gel, bullfighting, film stardom and dance crazes. From the

vantage points of Berlin, Buenos Aires, and New York, the reader is allowed multiple itineraries, ultimately becoming immersed in the activities, entertainments, and thought patterns of the citizens of 1926. *Comprehensive Guidelines for Prevention and Control of Dengue and Dengue Haemorrhagic Fever* Who Regional Office for South-East Asia 2011 Dengue Fever is the fastest emerging arboviral infection with major public health consequences for millions of people around the world, and in particular the South-East Asia region. These regional guidelines were extensively revised, updated and expanded with the focus on new and additional topics of current relevance to the populations of the region. They are intended to provide guidance to national and local-level program managers and public health officials, as well as stakeholders, including health practitioners, laboratory personnel and multisectoral partners, in strategic planning, implementation, monitoring and evaluation, and strengthening the response to dengue prevention and control in their countries. Scientists and researchers involved in vaccine and antiviral drug development will also find crucial baseline information in this publication.

Asha Parekh The Hit Girl Khalid Mohamed 2017-04-10 Asha Parekh was to the movies born. Ever since she was knee-high, she faced the camera as a child artiste, while performing simultaneously at dance fetes. An alumnus of Bombay's The J. B. Petit Girls' High School, she devoted after-

school hours to learning classical dance from exacting gurus. Given a break as a leading lady by Filmalaya Studio's Sashadhar Mukherjee, she debuted opposite Shammi Kapoor in the romantic entertainer *Dil Deke Dekho*. Instantaneously, the audience and the critics agreed: "A star is born." Followed a concatenation of silver and golden jubilee hits, which established her as the quintessential Hit Girl. Possessed of all the requisites of the cinema of the 1960s and the '70s - felicity at instinctive acting, intricate dance skills and the ability to invest conviction into the roles of zestful, glamour-exuding film heroines - she made an impact, too, with parts demanding gravitas. Apart from films in Hindi, she has also acted in films in Gujarati, Punjabi and a film in Kannada. The Mumbai film trade, to date, acknowledges her as one of the heroines with the highest number of successes. Her innumerable dance ballets on stage have earned her untold acclaim, at home and overseas. Among her other facets, she has been involved since decades in running a charitable hospital. She was Chairperson of the Central Board of Film Certification (1998-2001) and has been associated with the Cine and TV Artistes' Associations and other organisations dedicated to the welfare of film industry workers, technicians and actors. She turned producer and director with several top TRP-rated TV serials like 'Kora Kagaz' and 'Palash ke Phool' and programmes like 'Baaje Paayal'. Currently she has chosen to retire from acting, but adds, "Never say never." She lives by the famed Juhu shoreline in Mumbai.
