Listen to the Heron's Words Gloria Goodwin Raheja 1994-04-29 In many South Asian oral traditions, herons are viewed as duplicitous and conniving. These traditions tend also to view women as fragmented identities, dangerously split between virtue and virtuosity, between loyalties to their own families and those of their husbands. In women's songs, however, symbolic herons speak, telling of alternative moral perspectives shaped by women. The heron's words—and women's expressive genres more generally—criticize pervasive North Indian ideologies of gender and kinship that place women in subordinate positions. By inviting readers to "listen to the heron's words," the authors convey this shift in moral perspective and suggest that these spoken truths are compelling and consequential for the women in North India. The songs and narratives bear witness to a provocative cultural dissonance embedded in women's speech. This book reveals the power of these critical commentaries and the fluid and permeable boundaries between spoken words and the lives of ordinary village women.

PreK-12 English Language Proficiency Standards TESOL

International Association 2006 The revised PreK-12 English Language Proficiency Standards build on the World-Class Instructional Design and Assessments (WIDA) Consortium's English Language Proficiency Standards for English Language Learners in Kindergarten through Grade 12 (Wisconsin, 2004). The WIDA Consortium is a group of ten states, formed in 2002 with federal monies, that has developed comprehensive English language proficiency standards. This volume also uses grade-level clusters that reflect current educational configurations in the United States. Each of the five language proficiency standards is divided into the four language domains of listening, speaking, reading and writing. The five levels of language proficiency reflect characteristics of language performance at each developmental stage and include: starting (L1), emerging (L2), developing (L3), expanding (L4), and bridging (L5).

The Recognition Sutras Christopher D. Wallis 2017-10-06 One thousand years ago, in the valley of Kashmir, a great Tantric master named Kshemaraja wrote his masterpiece: the Pratyabhijnahridayam, which means "The Essence of the Recognition Philosophy". This text was a concise primer, written to introduce spiritual seekers to the Recognition philosophy in less formally philosophical, more approachable language. What Kshemaraja created turned out to be one of the world's great spiritual masterpieces, breathtaking in its brevity but stunning in its power. It came to be considered equivalent to scripture itself by later generations, because of its undeniable inspiration. This

book expounds the subtleties of this spiritual and philosophical classic. One of the most powerful and revelatory spiritual masterpieces of world history, the Pratyabhijnahridayam is one of the primary sources for the study and practice of nondual Tantrik Yoga, and it has never been accurately translated or fully explained until now.

Letters to Zerky Bill Raney 2011-11-01 A buoyant, bittersweet and often plaintively gorgeous travel memoir by Raney, writer and founder of the famous Nickelodeon Theatre in Santa Cruz, California. Raney's debut book follows the arc of a year-long expedition around the world, launched in 1967, at the height of "the summer of love in a summer of death". In San Francisco, where the author lived with his wife JoAnne, hippies and beatniks flooded the streets, and new reports arrived every day from the bloody conflict in Vietnam. The couple decided to decamp for Europe, where the dollar was strong and the possibilities seemed endless. Along for the ride is Tarzan, a fiery dachshund, and a baby boy named Eric Xerxes Raney, known as Zerky. For a while, this quirky little family made its way across the Continent, camping in open fields, cavorting on beaches and scrambling through the Swiss Alps. The narrative is built on letters Raney

wrote to Zerky who would presumably be too young to remember the breadth of these adventures -- and diary entries by JoAnne, a fastidious chronicler of the far-flung. "That there might be a world beyond Europe, a world you could drive to, was something that never occurred to us until six months later", the author remembers, near the beginning of the book. Soon enough, the Raney's caterwauled through Turkey, Pakistan, India and Iran -- a journey that would prove difficult, if not impossible, to duplicate in these pitched political times. In Kabul, Afghanistan, they vividly pick their "way through random passageways and alleyways that were left between buildings at the time of their construction". In Eastern Turkey, they face down a gaggle of armed and angry soldiers. The adventure quotient here is high, but the main ballast of the book is emotional. Shortly after returning from the expedition, JoAnne, pregnant with her second child, died of an aneurism, and within a year, Zerky was killed while playing near his family's home. The book remains as a testament to the power of the human spirit -- to wander, endure and remember. A chronicle of travels through a bygone world.
