Food for the Heart Chah 2005-06-10 Renowned for the beauty and simplicity of his teachings, Ajahn Chah was Thailand's best-known meditation teacher. His charisma and wisdom influenced many American and European seekers, and helped shape the American Vipassana community. This collection brings together for the first time Ajahn Chah's most powerful teachings, including those on meditation, liberation from suffering, calming the mind, enlightenment and the 'living dhamma'. Most of these talks have previously only been available in limited, private editions and the publication of *Food for the Heart* therefore represents a momentous occasion: the hugely increased accessibility of his words and wisdom. Western teachers such as Ram Dass and Jack Kornfield have extolled Chah's teachings for years and now readers can experience them directly in this book.

Jonathan Swift and Popular Culture Ann Cline Kelly 2008-06-15 Winner of the Choice Outstanding Academic Title! Ann Kelly's provocative book breaks the mold of Swift studies. 20th-century scholars have tended to assess Jonathan Swift as a pillar of the 18th-century "republic of letters," a conservative, even reactionary voice upholding classical values against the welling tide of popularization in literature. Kelly's Swift is instead a practical exponent of the popular and impresario of the literary image. She argues that Swift turned his back on the elite to write for a popular audience, and that he annexed scandals to his fictionalized print alter ego, creating a continual demand for works by or about this self-mythologized figure. A fascinating look at popular print media, the commodification of the author, culture formation, and modern myth making, this book opens new ground in our understanding of one of the greatest English writers.

Inventing English Seth Lerer
2015-08-25 A history of English from the age of Beowulf to the rap of Eminem, "written with real authority, enthusiasm and love for our unruly and exquisite language" (The Washington Post). Many have written about the evolution of grammar, pronunciation, and vocabulary, but only Seth Lerer situates these developments within the larger history of English, America, and literature. This edition of his "remarkable linguistic investigation" (Booklist) features a new chapter on the influence of biblical translation and an epilogue on the relationship of English speech to writing. A unique blend of historical and personal narrative, both "erudite and accessible" (The Globe and Mail), *Inventing English* is the surprising tale of a language that is as dynamic as the people to whom it belongs. "Lerer is not just a scholar; he's also a fan of English—his passion is evident on every page of this examination of how our language came to sound—and look—as it does and how words came to have their current meanings...the book percolates with creative energy and will please anyone intrigued by how our richly variegated language came to be."—Publishers Weekly (starred review)

The Imperial Sublime Harsha Ram
2006-03-31 Review: "The Imperial Sublime examines the rise of the Russian empire as a literary theme alongside the creation and evolution of modern Russian poetry between the 1730s and 1840. Arising from the need to celebrate the Russian state and its expanding territories, the imperial theme quickly became enmeshed in a wider range of issues, from formal problems of genre, style, and lyric voice to the vexed relationship between the poet and Russia's ruling monarchs." "Part of a growing body of recent scholarship that has examined Russian representations of Russia's southern borderlands in the light of European orientalism and imperialism, *The Imperial Sublime* shows how the broader cultural discourses of empire can be adapted and inflected by a

national literary system."--BOOK JACKET

Words That Work Dr. Frank Luntz
2007-01-02 The nation's premier communications expert shares his wisdom on how the words we choose can change the course of business, of politics, and of life in this country. In *Words That Work*, Luntz offers a behind-the-scenes look at how the tactical use of words and phrases affects what we buy, who we vote for, and even what we believe in. With chapters like "The Ten Rules of Successful Communication" and "The 21 Words and Phrases for the 21st Century," he examines how choosing the right words is essential. Nobody is in a better position to explain than Frank Luntz: He has used his knowledge of words to help more than two dozen Fortune 500 companies grow. Hell tell us why Rupert Murdoch's six-billion-dollar decision to buy DirectTV was smart because satellite was more cutting edge than "digital cable," and why pharmaceutical companies transitioned their message from "treatment" to "prevention" and "wellness." If you ever wanted to learn how to talk your way out of a traffic ticket or talk your way into a raise, this book's for you.

El Libertador Simón Bolívar
2003-03-15 General Simón Bolívar (1783-1830), called El Libertador, and sometimes the "George Washington" of Latin America, was the leading hero of the Latin American independence movement. His victories over Spain won independence for Bolivia, Panama, Columbia, Ecuador, Peru, and Venezuela. Bolívar became Columbia's first president in 1819. In 1822, he became dictator of Peru. Upper Peru became a separate state, which was named Bolivia in Bolívar's honor, in

1825. The constitution, which he drew up for Bolivia, is one of his most important political pronouncements. Today he is remembered throughout South America, and in Venezuela and Bolivia his birthday is a national holiday. Although Bolívar never prepared a systematic treatise, his essays, proclamations, and letters constitute some of the most eloquent writing not of the independence period alone, but of any period in Latin American history. His analysis of the region's fundamental problems, ideas on political organization and proposals for Latin American integration are relevant and widely read today, even among Latin Americans of all countries and of all political persuasions. The "Cartagena Letter," the "Jamaica Letter," and the "Angostura Address," are widely cited and reprinted.

Eminent Nuns Beata Grant 2008-07-01 The seventeenth century is generally acknowledged as one of the most politically tumultuous but culturally creative periods of late imperial Chinese history. Scholars have noted the profound effect on, and literary responses to, the fall of the Ming on the male literati elite. Also of great interest is the remarkable emergence beginning in the late Ming of educated women as readers and, more importantly, writers. Only recently beginning to be explored, however, are such seventeenth-century religious phenomena as "the reinvention" of Chan Buddhism—a concerted effort to revive what were believed to be the traditional teachings, texts, and practices of "classical" Chan. And, until now, the

role played by women in these religious developments has hardly been noted at all. *Eminent Nuns* is an innovative interdisciplinary work that brings together several of these important seventeenth-century trends. Although Buddhist nuns have been a continuous presence in Chinese culture since early medieval times and the subject of numerous scholarly studies, this book is one of the first not only to provide a detailed view of their activities at one particular moment in time, but also to be based largely on the writings and self-representations of Buddhist nuns themselves. This perspective is made possible by the preservation of collections of "discourse records" (yulu) of seven officially designated female Chan masters in a seventeenth-century printing of the Chinese Buddhist Canon rarely used in English-language scholarship. The collections contain records of religious sermons and exchanges, letters, prose pieces, and poems, as well as biographical and autobiographical accounts of various kinds. Supplemental sources by Chan monks and male literati from the same region and period make a detailed recreation of the lives of these eminent nuns possible. Beata Grant brings to her study background in Chinese literature, Chinese Buddhism, and Chinese women's studies. She is able to place the seven women, all of whom were active in Jiangnan, in their historical, religious, and cultural contexts, while allowing them, through her skillful translations, to speak in their own voices. Together these women offer an important, but until now virtually unexplored, perspective on seventeenth-century China, the history of female monasticism in China, and the contribution of Buddhist nuns to the history of Chinese women's writing.

A Century in Crisis Julia F. Andrews 2003 New Lower Price Between 1850 and today, China has undergone an unprecedented series of shocks and transformations. This dramatic period—which has seen urban industrialization, conquest by foreign powers, civil wars, changing

governments and, more recently, a gradual opening to the international community--has also marked an explosion of artistic experimentation and innovation. Spanning 150 spectacular years of artistic production, "A Century in Crisis" offers the first systematic exploration of modern and contemporary Chinese art. Essays by leading scholars show the ways in which Chinese artists have grappled with modernity, tradition, self-definition and the adoption and rejection of Western convention. Sumptuous color plates showcase a dazzling array of achievements--including Shanghai School paintings, modern calligraphy, commercial art, 1920s and 1930s woodblock prints, modern guohua (traditional ink and color paintings), socialist realist paintings and other contemporary works.

Speaking the Unspeakable in Postwar Germany Sonja Boos 2015-03-10

Speaking the Unspeakable in Postwar Germany is an interdisciplinary study of a diverse set of public speeches given by major literary and cultural figures in the 1950s and 1960s. Through close readings of canonical speeches by Hannah Arendt, Theodor W. Adorno, Ingeborg Bachmann, Martin Buber, Paul Celan, Uwe Johnson, Peter Szondi, and Peter Weiss, Sonja Boos demonstrates that these speakers both facilitated and subverted the construction of a public discourse about the Holocaust in postwar West Germany. The author's analysis of original audio recordings of the speech events (several of which will be available on a companion website) improves our understanding of the spoken, performative dimension of public speeches. Speaking the Unspeakable in Postwar Germany emphasizes the social constructedness of discourse, experience, and identity, but does not neglect the pragmatic conditions of aesthetic and intellectual production--most notably, the felt need to respond to the breach in tradition caused by the Holocaust. The book thereby illuminates the process by which a set of writers and intellectuals, instead of trying to mend what they

perceived as a radical break in historical continuity or corroborating the myth of a "new beginning," searched for ways to make this historical rupture rhetorically and semantically discernible and literally audible.

Chemokine Protocols Amanda E. I. Proudfoot 2000 In the past decade research has established the biological importance of chemokines: they play a major role in leukocyte trafficking, in the recruitment of leukocytes to inflammatory sites, and are coreceptors along with CD4 for HIV cell entry. In *Chemokine Protocols*, expert investigators describe in detail important techniques used in chemokine biology. Covering both ligands and receptors, these readily reproducible methods cover all aspects of chemokine research, ranging from the cloning and characterization of chemokines and their receptors, through the use of animal models to study chemokine function in vivo. Each method also includes relevant background information, as well as providing a useful bibliography that renders the study of chemokines accessible at all levels of experience. Comprehensive and highly practical, *Chemokine Protocols* offers experimental and clinical chemokine researchers today's gold-standard collection of proven methods for analyzing this biologically ubiquitous and important class of proteins.

Healing Logics Erika Brady 1802-01-04 Scholars in folklore and anthropology are more directly involved in various aspects of medicine—such as medical education, clinical pastoral care, and negotiation of transcultural issues—than ever before. Old models of investigation that artificially isolated "folk medicine," "complementary and alternative medicine," and "biomedicine" as mutually exclusive have proven too limited in exploring the real-life complexities of health belief systems as they observably exist and are applied by contemporary Americans. Recent research strongly suggests that individuals construct their health belief systems from diverse sources of authority, including community and ethnic tradition, education, spiritual beliefs, personal experience, the influence of popular media, and perception of the goals and means of formal medicine. *Healing Logics* explores the diversity of these belief systems and how they interact—in competing, conflicting, and sometimes remarkably congruent ways. This book contains essays by leading scholars in the field and a comprehensive bibliography of folklore and medicine.

Annette Förster presents a careful assessment of the long career of Dutch stage and film actress Adriëne Solser; an exploration of the stage and screen careers of French actress and filmmaker Musidora and Canadian-born actress and filmmaker Nell Shipman; an analysis of the interaction between the popular stage and the silent cinema from the perspective of women at work in both realms; fresh insights into Dutch stage and screen comedy, the French revue and the American Northwest drama of the 1910s; and much more, all grounded in a wealth of archival research.

The Worlds of Langston Hughes Vera M. Kutzinski 2012-10-15 The poet Langston Hughes was a tireless world traveler and a prolific translator, editor, and marketer. Translations of his own writings traveled even more widely than he did, earning him adulation throughout Europe, Asia, and especially the Americas. In *The Worlds of Langston Hughes*, Vera Kutzinski contends that, for writers who are part of the African diaspora, translation is more than just a literary practice: it is a fact of life and a way of thinking. Focusing on Hughes's autobiographies, translations of his poetry, his own translations, and the political lyrics that brought him to the attention of the infamous McCarthy Committee, she shows that translating and being translated—and often mistranslated—are as vital to Hughes's own poetics as they are to understanding the historical network of cultural relations known as literary modernism. As Kutzinski maps the trajectory of Hughes's writings across Europe and the Americas, we see the remarkable extent to which

the translations of his poetry were in conversation with the work of other modernist writers. Kutzinski spotlights cities whose role as meeting places for modernists from all over the world has yet to be fully explored: Madrid, Havana, Buenos Aires, Mexico City, and of course Harlem. The result is a fresh look at Hughes, not as a solitary author who wrote in a single language, but as an international figure at the heart of a global intellectual and artistic formation.

Musical Worlds in Yogyakarta Max Richter 2012-01-01 Musical Worlds in Yogyakarta addresses themes of social identity and power, counterpoising Pierre Bourdieu's theories on class, gender and nation with the author's alternative perspectives of inter-group social capital, physicality and grounded cosmopolitanism. The author argues that Yogyakarta is exemplary of how everyday people make use of music to negotiate issues of power and at the same time promote peace and intergroup appreciation in culturally diverse inner-city settings.

Empire of Illusion Chris Hedges 2009-07-28 Pulitzer prize-winner Chris Hedges charts the dramatic and disturbing rise of a post-literate society that craves fantasy, ecstasy and illusion. Chris Hedges argues that we now live in two societies: One, the minority, functions in a print-based, literate world, that can cope with complexity and can separate illusion from truth. The other, a growing majority, is retreating from a reality-based world into one of false certainty and magic. In this "other society," serious film and theatre, as well as newspapers and books, are being pushed to the margins. In the tradition of Christopher Lasch's *The Culture of Narcissism* and Neil Postman's *Amusing Ourselves to Death*, Hedges navigates this culture – attending WWF contests as well as Ivy League graduation ceremonies – exposing an age of terrifying decline and heightened self-delusion.

Arts-Based Methods for Decolonising Participatory Research Tiina Seppälä 2021-04-18 In an effort to challenge the ways in which colonial power relations and Eurocentric knowledges are reproduced in participatory research, this book explores whether and how it is possible to use arts-based methods for creating more horizontal and democratic research practices. In discussing both the transformative potential and limitations of arts-based methods, the book asks: What can arts-based methods contribute to decolonising participatory research and its processes and practices? The book takes part in ongoing debates related to the need to decolonise research, and investigates practical contributions of arts-based methods in the practice-led research domain. Further, it discusses the role of artistic research in depth, locating it in a decolonising context. The book will be of interest to scholars working in art history, design, fine arts, service design, social sciences and development studies.

Micro-bionic Thomas Bey William Bailey 2009 As mainstream music consumers wait with baited breath for the next musical upheaval, a small core of tech-savvy individuals are re-shaping the aural landscape without the assurance of being part of any larger movement. Their ideologies and creative approaches differ wildly, but they share a desire to take sound beyond the realm of mere entertainment. Drawing on extensive research into the world of audio extremity, *Micro-Bionic* includes interviews with William Bennett (Whitehouse), Peter Rehberg (Mego) and Peter Christopherson (Throbbing Gristle/Coil).

Collected Works of Velimir Khlebnikov: Letters and theoretical writings Велимир Хлебников 1987 Dubbed by his fellow Futurists the "King of Time," Velimir Khlebnikov (1885-1922) spent his entire brief life searching for a new poetic language to express his convictions about the rhythm of history, the correspondence between human behavior and the "language of the stars." The result was a vast body of poetry and

prose that has been called hermetic, incomprehensible, even deranged. Of all this tragic generation of Russian poets (including Blok, Esenin, and Mayakovsky), Khlebnikov has been perhaps the most praised and the more censured. This first volume of the *Collected Works*, an edition sponsored by the Dia Art Foundation, will do much to establish the counterimage of Khlebnikov as an honest, serious writer. The 117 letters published here for the first time in English reveal an ebullient, humane, impractical, but deliberate working artist. We read of the continuing involvement with his family throughout his vagabond life (pleas to his smartest sister, Vera, to break out of the mold, pleas to his scholarly father not to condemn and to send a warm overcoat); the naive pleasure he took in being applauded by other artists; his insistence that a young girl's simple verses be included in one of the typically outrageous Futurist publications of the time; his jealous fury at the appearance in Moscow of the Italian Futurist Marinetti; a first draft of his famous zoo poem ("O Garden of Animals!"); his seriocomic but ultimately shattering efforts to be released from army service; his inexhaustibly courageous confrontation with his own disease and excruciating poverty; and always his deadly earnest attempt to make sense of numbers, language, suffering, politics, and the exigencies of publication. The theoretical writings presented here are even more important than the letters to an understanding of Khlebnikov's creative output. In the scientific articles written before 1910, we discern foreshadowings of major patterns of later poetic work. In the pan-Slavic proclamations of 1908-1914, we find explicit connections between cultural roots and linguistic ramifications. In the semantic excursions beginning in 1915, we can see Khlebnikov's experiments with consonants, nouns, and definitions spelled out in accessible, if arid, form. The essays of 1916-1922 take us into the future of Planet Earth, visions of universal

order and accomplishment that no longer seem so farfetched but indeed resonate for modern readers. There Was a Country Chinua Achebe 2012-10-11 From the legendary author of *Things Fall Apart* comes a long-awaited memoir about coming of age with a fragile new nation, then watching it torn asunder in a tragic civil war. The defining experience of Chinua Achebe's life was the Nigerian civil war, also known as the Biafran War, of 1967-1970. The conflict was infamous for its savage impact on the Biafran people, Chinua Achebe's people, many of whom were starved to death after the Nigerian government blockaded their borders. By then, Chinua Achebe was already a world-renowned novelist, with a young family to protect. He took the Biafran side in the conflict and served his government as a roving cultural ambassador, from which vantage he absorbed the war's full horror. Immediately after, Achebe took refuge in an academic post in the United States, and for more than forty years he has maintained a considered silence on the events of those terrible years, addressing them only obliquely through his poetry. Now, decades in the making, comes a towering reckoning with one of modern Africa's most fateful events, from a writer whose words and courage have left an enduring stamp on world literature. Achebe masterfully relates his experience, both as he lived it and how he has come to understand it. He begins his story with Nigeria's birth pangs and the story of his own upbringing as a man and as a writer so that we might come to understand the country's promise, which turned to horror when the hot winds of hatred began to stir. To read *There Was a Country* is to be powerfully reminded that artists have a particular obligation, especially during a time of war. All writers, Achebe argues, should be committed writers—they should speak for their history, their beliefs, and their people. Marrying history and memoir, poetry and prose, *There Was a Country* is a distillation of vivid firsthand observation and forty years of research and reflection. Wise,

humane, and authoritative, it will stand as definitive and reinforce Achebe's place as one of the most vital literary and moral voices of our age.

Silence John Cage 2010-10-20 John Cage is the outstanding composer of avant-garde music today. The Saturday Review said of him: "Cage possesses one of the rarest qualities of the true creator- that of an original mind- and whether that originality pleases, irritates, amuses or outrages is irrelevant." "He refuses to sermonize or pontificate. What John Cage offers is more refreshing, more spirited, much more fun-a kind of carefree skinny-dipping in the infinite. It's what's happening now." -The American Record Guide "There is no such thing as an empty space or an empty time. There is always something to see, something to hear. In fact, try as we may to make a silence, we cannot. Sounds occur whether intended or not; the psychological turning in direction of those not intended seems at first to be a giving up of everything that belongs to humanity. But one must see that humanity and nature, not separate, are in this world together, that nothing was lost when everything was given away."

PreK-12 English Language Proficiency Standards TESOL International Association 2006 The revised PreK-12 English Language Proficiency Standards build on the World-Class Instructional Design and Assessments (WIDA) Consortium's English Language Proficiency Standards for English Language Learners in Kindergarten through Grade 12 (Wisconsin, 2004). The WIDA Consortium is a group of ten states, formed in 2002 with federal monies, that has developed comprehensive English language proficiency standards. This volume also uses grade-level clusters that reflect current educational configurations in the United States. Each of the five language proficiency standards is divided into the four language domains of listening, speaking, reading and writing. The five levels of language proficiency reflect characteristics of language performance at each developmental stage and include: starting (L1),

emerging (L2), developing (L3), expanding (L4), and bridging (L5). Silence John Cage 1961-06 John Cage is the outstanding composer of avant-garde music today. Vidich 2009 Internationally renowned sociologist Arthur J. Vidich (1922-2006) was an active researcher and teacher whose career spanned the second half of the twentieth century. *With a Critical Eye: An Intellectual and His Times* recounts Vidich's career in the wider cultural context of his life and work. Providing a window into post-World War II intellectual life, the richness of the autobiography lies not only in Vidich's perspectives on the academic world but also in his personal and sociological observations about the world around him. Best known for his book *Small Town in Mass Society* (co-authored with Joseph Berman, 1958), Vidich taught for more than forty years at the New School for Social Research in New York. He published eighteen books, co-edited a book series with Robert Jackall, and was the founding editor of the *International Journal of Politics, Culture, and Society*. Vidich "provides a valuable lens ... on a profoundly important time in the

formation of the modern social sciences, when the changes in the U.S. were having formative impacts on academe in other parts of the world,"

writes Robert J. Antonio, professor of sociology at the University of Kansas. "The autobiography is lucidly and unpretentiously written." Book jacket.
