National bestseller 2017 National Book Critics Circle (NBCC) Finalist ABA Indies Introduce Winter / Spring 2017 Selection Barnes & Noble Discover Great New Writers Spring 2017 Selection ALA 2018 Notable Books Selection An intimate and poignant graphic novel portraying one family's journey from war-torn Vietnam, from debut author Thi Bui. This beautifully illustrated and emotional story is an evocative memoir about the search for a better future and a longing for the past. Exploring the anguish of immigration and the lasting effects that displacement has on a child and her family, Bui documents the story of her family's daring escape after the fall of South Vietnam in the 1970s, and the difficulties they faced building new lives for themselves. At the heart of Bui's story is a universal struggle: While adjusting to life as a first-time mother, she ultimately discovers what it means to be a parent—the endless sacrifices, the unnoticed gestures, and the depths

of unspoken love. Despite how impossible it seems to take on the simultaneous roles of both parent and child, Bui pushes through. With haunting, poetic writing and breathtaking art, she examines the strength of family, the importance of identity, and the meaning of home. In what Pulitzer Prize-winning novelist Viet Thanh Nguyen calls "a book to break your heart and heal it," *The Best We Could Do* brings to life Thi Bui's journey of understanding, and provides inspiration to all of those who search for a better future while longing for a simpler past.

The task is simple: Don a disguise. Survive the labyrinth . . . Best

the boys. Every year for the past fifty-four years, the residents of Pinsbury Port have received a mysterious letter inviting all eligible-aged boys to compete for an esteemed scholarship to the all-male Stenwick University. The poorer residents look to see if their names are on the list. The wealthier look to see how likely their sons are to survive. And Rhen Tellur opens it to see if she can derive which substances the ink and parchment are created from, using her father's microscope. In the province of Caldon, where women train in wifely duties and men pursue collegiate education, sixteen-year-old Rhen Tellur wants nothing more than to become a scientist. As the poor of her seaside town fall prey to a deadly disease, she and her father work desperately to find a cure. But when her mum succumbs to it as well? Rhen decides to take the future into her own hands—through the annual all-male scholarship competition. With her cousin, Seleni, by her side, the girls don disguises and enter Mr. Holm's labyrinth, to best the boys and claim the scholarship prize. Except not everyone is ready for a girl who doesn't know her place. And not everyone survives the deadly maze. Welcome to the labyrinth.
